Indonesian Dentistry Embracing AEC 2015 What to Prepare?

need the answer

INTERNATIONAL MEETING & EXHIBITION

ASTON HOTEL , SEMARANG , INDONESIA

MAY 30TH - 31TH , 2015

AEC is an economic integration between 10 ASEAN countries which covers several areas including human resources development, recognition of professional qualifications, closer consultation on macroeconomic and financial policies, trade financing measures, enhanced infrastructure and communication connectivity, integrating industries across the regional, enhancing private sector involvement

Our dentistry field will inevitably be affected by this. Consumers are not only the locals, but also Singaporeans, Malaysians, and many other patients from ASEAN country.

Likewise, foreign professionals are welcomed to Indonesia simply without passing through complex bureaucracy. Competition is therefore becoming tougher. It is very crucial for Indonesian dentists to enhance their knowledge and skills

It is hoped that this program could be a way of improving knowledge as well as skills to face AEC 2015

CALL FOR PAPER

Dead line, **March 30th, 2015**
