TO: Our Valued Customer
SUBJECT: Grain Ounce Equivalencies of Kellogg's® Food Away From Home Products

Thank you for your interest in using our products as part of your National School Lunch and School Breakfast Programs. The attached table outlines the ounce equivalents (oz eq) of grain for a variety of our products according to the *Nutrition Standards in the National School Lunch and School Breakfast Programs* published by the US Department of Agriculture (USDA) in the Federal Register on January 26, 2012 and USDA Policy Memo SP 30-2012. All grain products must be credited based on these new grain ounce equivalency standards beginning on July 1, 2013. After July 1, 2014, only grain products that qualify as whole grain-rich may be credited.

In the USDA Policy Memo SP 30-2012, *Grain Requirements for the National School Lunch Program and School Breakfast Program*, dated April 26, 2012, a product must either use the crediting equivalency of 16 grams of creditable (whole and/or enriched) grains per oz eq OR fulfill the weight requirement listed in Exhibit A: *School Lunch and Breakfast - Whole Grain-Rich Ounce Equivalency (Oz Eq) Requirements For School Meal Programs*.

All Kellogg's® brands listed in the attached table, with the exception of the Cereal Category, are eligible within the program, using the standard of 16 grams of creditable grains to equal 1 oz eq of grain. Ready-to-eat cereals and hot cereals must qualify based on the serving sizes outlined in Exhibit A.

- **CEREALS** -- Under Group H Breakfast Cereals (Cooked) and Group I Ready-To-Eat Breakfast Cereal, 1 oz eq is equal to 1 ounce of cereal. *Because cereals must qualify based on their serving size, the amount of creditable grains is not detailed in the table that follows.*

I certify that the above information is true and correct, and that each Kellogg's® product fulfills the grain ounce equivalents listed in the table that follows.
