Hello Vidioshare,

I'm from Winning Coin Picks, a crypto pump group with notorious traders and talented marketers. We can promise an increase in your price by at least 4 times. What we need in exchange is your partnership. Are you willing to let us pump your coin? Most coins we never dump because the profit is very good long term.

Regards,  
Robert

What coins have you pumped before?

How can you make such a promise?

We partnered with the team that made aurouracoin and isracoin. We have also been privately contracted by other coins that I cannot disclose

What we do is give you some projects to announce, and when you announce that, we buy a bunch of coins, and when we reach high enough, we will sell. But the good thing is that there is enough coins that we keep some, and then price stays high.

You willing to pump this coin with us?

Robert

Sounds like you have this process down.

I am willing to give it a go, let me know what to have posted and I will make sure it gets done.

What is your target?

So just to be 100% clear, as other coins have flaked out and there have been misunderstandings, you are ok with us pumping your coin?

How have other coins flaked out?

I don't mind a pump.

Make it happen.

I must let you know that this is not "my coin"- and I don't know why you keep referring to it as such.

I know the dev first hand and have forwarded all messages to him, and he also says its a go.

It wont take much to pump anyway.

When do you plan to make your move?

Congratulations! Vidioshare will be on the news! Thank you for showing you are willing to cooperate with scammers when we willingly say we plan to dump. You have 12 hours to donate 10.13374 BTC to bitgive foundation and provide us with the transaction id, or we will release this email to the public.

Some notable quotes we'll be sure to include:

"ou are ok with us pumping your coin?"

I know the dev first hand and have forwarded all messages to him, and he also says its a go.

I don't mind a pump.

I am willing to give it a go, let me know what to have posted and I will make sure it gets done.

Responding to us agreeing to announce fake features.

Thank you for helping the community avoid scams,

Haha hilarious.

Too bad this isn't my coin lol

Thanks again.

Have a good one.

Too bad I told you it was my coin.

It was fun riding that out to see where it went...you are a joke.

Let it be in the news...I will be able to buy them cheap =)

You either are pumping or dumping, I really don't care.
