

Assistant Professor - Division of Rehabilitation Sciences, School of Health Professions in Galveston, Texas

MIN QUALIFICATIONS

1. Doctoral degree in health service, epidemiology, public health nursing or related field
2. Experience in qualitative and mixed methods research
3. Experience in stakeholder engagement (community)

SALARY RANGE

Commensurate with experience

Specific Job Related Duties

This position is being recruited for the Patient Centered Outcomes Research for the Elderly program, which includes three research projects using a mixed methods approach, combining qualitative and quantitative methods. The projects also involve patient and provider stakeholders, obtaining information on individual patient preference, etc. This faculty position will participate on two of the projects. Specifically, the faculty will:

1. Conduct interviews and supervisor interviews with relevant stakeholders including patients, family members, providers and administrators.
2. Develop interview questionnaires to determine patient outcomes and treatment preferences.
3. Participate with project investigators in studies to establish the reliability and validity of questionnaires.
4. Develop strategies and material to recruit participants to participate in interviews and focus group discussions.
5. Collaborate with other project investigators in the: a) collection of patient data from interviews and medical records; b) analyses of patient and stakeholder data using quantitative and qualitative methods; c) preparation of papers, presentations and progress reports; d) dissemination of study findings in journal articles, conference presentations and technical reports.
6. Develop an individual research program in patient-centered outcomes research.

Preferred Skill/Competency

1. Evidence of ability to work as a member of a research team
2. Excellent communication skills, both written and oral

Preferred Work Experience

The faculty candidate will have experience in a well-established research center. In particular, experience with minority populations is desired. The candidate should also have experience with community-based research and quantitative methods, including open-ended interviews and dissemination/implementation methods. Evidence of writing ability such as first author publications is also important.

EQUAL EMPLOYMENT OPPORTUNITY

UTMB Health strives to provide equal opportunity employment without regard to race, color, national origin, sex, age, religion, disability, sexual orientation, gender identity or expression, genetic information or veteran status. As a VEVRAA Federal Contractor, UTMB Health takes affirmative action to hire and advance women, minorities, protected veterans and individuals with disabilities.

Current faculty include James S. Goodwin, MD, Kenneth Ottenbacher, PhD, OTR, John Prochaska, DrPH, Timothy Reistetter, PhD, OTR, Taylor Riall, MD, PhD, Alai Tan, MD, PhD, and Susan Weller, PhD.

Interested individuals can contact Stephanie Burt at stburt@utmb.edu for more information. They can apply online at <http://utmb.jobs/> Job ID 42440 and upload a current curriculum vitae, enter salary requirements and list the names and contact information of three references.
