Quality Assurance

Quality processes and products are what we strive for every day. We take pride in our American made liquids and do everything we can to ensure that our Dealers and end users get a quality product. Part of that promise involves investing in our ISO 9001:2008 and cGMP certification.

Even before Government regulations have been declared, we have spent hundreds of thousands of dollars getting our labs and production facilities certified. DuraSmoke was the first eLiquid manufacturer in the country to have this certification and it's what sets us apart from the competition.

By being the first to reach this level of excellence, we've positioned ourselves to lead the eLiquid manufacturing industry in quality production standards for our end users.

SOME SMOKERS FIND IT TOO MUCH OF A CHANGE TO GO FROM SMOKING TO VAPING SO WE CREATED DURATRUE. NO FLUFFY FRUIT FLAVORS OR TOBACCO "FLAVORINGS", DURATRUE IS MADE WITH 100% NATURAL TOBACCO EXTRACTS. HSO WHAT DOES THAT MEAN? IT'S AN E-CIGARETTE LIQUID MADE WITH THE SAME STUFF THAT'S IN A CIGARETTE (THE TOBACCO OILS AND FLAVORS; NOT THE PAPER, FILTER, OR WHO KNOWS WHAT "ADDITIVES"), SO IT TASTES, PUFFS, AND SATISFIES JUST LIKE A CIGARETTE DOES.

WITH A PATENT PENDING PROCESS, AND OVER A YEAR OF DEVELOPMENT, DURASMOKE SOUGHT TO CREATE A PRODUCT THAT CAN TRULY HELP PEOPLE. A PRODUCT THAT LOWERS SO MANY OF THE TRADITIONAL HURDLES THAT KEEP ANALOG SMOKERS FROM JUMPING INTO THE DIGITAL WORLD OF E-CIGARETTES.

DURA DISTRIBUTION

As a way to offer more to our dealer network we are now bringing on new brands to sell! All the brands we carry are from up and coming juice companies and vape shops around the country. These liquids are all made in the USA. They are from companies that sell very well in their region but could do even better nationally. They are complex and powerful in flavor and have unique flavor profiles. Now our dealers can choose between multiple lines and mix and match for a great low price.

We have always prided ourselves on making a high quality eliquid that tastes like what the name says it is. Our Vanilla is a strong creamy vanilla... our tobacco is a bold and smooth tobacco and our menthol is... yup you guessed it... a cool and crisp menthol. No fancy names, no fancy packaging... just a great tasting quality eLiquid.

The problem is that people only thought of us as an everyday juice company producing everyday type juices. So after years of successful sales of "everyday" juices we wanted to step up our game. Our premium line is made up of bold flavors and unique flavor layers that will blow you away. We spent the time needed to create each flavor and we had our trusted dealers test all of our flavors to make sure they were on point.

Won Kha Bomb is an eLiquid line created by The Vapor Stop USA, a Wisconsin based vape shop chain. With all their success and knowledge they wanted to create a brand with flavor profiles that their customers wanted, but couldn't find. They spent months crafting flavors that were powerful in flavor, while still having the profiles people wanted.

Jolly Apple - Sour Apple hard candy
Jolly Melon - Watermelon hard candy
Rainbow - Tastes like a handful of colorful chewy candies.
Razzleberry - Sweet and tart raspberry.

The Dirty Armadillo line originated from Vape I80, a vape shop based out of Annapolis, MD. The shop owner wanted to create a unique blend of eLiquids that had profiles unlike anyone had tasted before. So they took their flavor ideas to a flavorist and they came up with this amazing line called Dirty Armadillo.

Water Blister - Blue Raspberry Cotton Candy
Coyote - Citrus fruits with a hint of menthol
Sandstorm - Marshmallow, chocolate, graham cracker s'mores.
High Noon - Complex tobacco with creamy undertones.

This brand is exclusively sold wholesale through Dura Distributing.

Nine2Five eLiquid is a DuraSmoke employee owned eLiquid. The sales and marketing team at DuraSmoke wanted to create a line that spoke to those that have a Nine2Five job and love to vape and have a few cocktails from time to time.

The staff talks to hundreds of shops a week and have great insight into what flavors are good and what people want. These flavors are strong and not only vape well in a tank but hit the mark perfectly in a dripping atomizer.

Work Hard. Play Hard.
