President's Report

The big news in my last report was that State Parks is planning to rebuild the viewing platform at Berry Creek Falls, and asked us to contribute \$5,000 toward the estimated \$15,000 cost for materials. The even bigger news this time is Board Member Lea Haratani asked Big Creek Lumber Company if they would donate the equivalent of our \$5,000 in lumber, and they generously agreed!

Big Creek Lumber—and the **McCrays** in particular—have been strong and steadfast supporters of the Waddell Creek Association from its inception, and we are truly grateful. Once the platform is assembled, we plan to publicize the gift as widely as possible.

The other exciting new development is that State Parks has hired a new Interpretive Specialist, **Jeremy Lin**, for Rancho del Oso. Jeremy studied natural history and environmental conservation at UCSC and has since worked as a naturalist teacher and trail crew member in various wilderness areas and National Parks. He spends his free time biking and surfing around Santa Cruz so is familiar with the area, and is enthusiastic about the opportunity to work with us in interpreting the Waddell Valley.

Our Board is very grateful for the guidance to our Association from Supervising State Parks Ranger Terry Kiser. As the State Parks' Cooperating Association Liaison (CAL), he guided us during the course of big changes including the total renovation of our facilities. The new CAL is Ziad Bawarshi, State Parks Ranger, who resides next to the Nature and History Center.
