

## All about the job

You've found an opening for a very special place within our early stage company. We're searching for a javascript developer who will have a significant impact on our team and product.

In your day-to-day job you will implement end-to-end solutions across our stack. Part of your responsibility will be to introduce and promote best-practices. Your experience will help us select the right tools for the jobs we do and constantly make viomedo more useful for patients, doctors and pharmaceutical companies that run clinical-trials.

This is a full-time position that is based in our office right at the Spree river in east Berlin.

## Tools we work with:

- Application: Node.js (Express)
- View: Jade - Template Engine
- Style: LESS
- Build tool: gulp.js
- Version control: Git
- Quality: Mocha, Continuous Integration (CI)
- Hosting: Amazon Web Services (AWS)
- Data storage: PostgreSQL, Sequelize ORM
- Search: Elasticsearch
- Deployment: Ansible

## Your qualification

- Cache: Redis
- Minimum of 3 years experience in web application development with at least 2 years of Node.js
- Ability to write fast javascript to a high standard, in a timely and scalable way
- Test driven development (TDD) is an integral part to your daily developer life
- Extended experience with exposing and consuming non-trivial REST APIs
- Experience with databases (SQL, NoSQL) is a plus
- Experience with cloud infrastructure (preferably AWS) is a plus
- Experience with search technology (preferably Elasticsearch) is a plus
- Having worked with high sensitive data (healthcare, fin tech, etc.) is a plus
- You are driven by impact and the desire to learn. While you can embrace ambiguity of a startup environment you don't forget the fun, too.
- You enjoy a work environment with minimal hand-holding or supervision.

## Our offer

- Make your work count by helping to improve the lives of millions of people.
- A highly competitive package to attract and retain top talent, including stock options.
- Work in a fast-paced environment on hard problems using cutting-edge technology.
- A spacious office with a ping pong table right at the Spree river, with drinks and fruit included.
- Work and enjoy live in awesome Berlin.

## About viomedo

On average, it takes 12 years to bring an innovative treatment to market and allow doctors to use it in standard practice. Millions of patients can't wait that long for a cure or improvement of their condition. In the meantime these exact treatments are available within clinical trials, that most patients can't access right now.

[viomedo](#) is the first online platform in Germany that gives patients full transparency into innovative treatment options and allows them to consider the participation in a clinical trial that they might benefit from. Moreover, we are helping the organizations that run and sponsor trials such as large research hospitals and pharmaceutical companies enroll patients in their trials faster and more reliably. This is the first step on the way to realizing our vision of bringing new treatment methods to the people who need them faster.

If this sounds like you then get in touch now and delight us with your unique application! We have HUGE projects in the pipeline this year and need the best talent on-board to help achieve our goals. Please also indicate when you'd like to start.
