Business Consultants**

# Who we are

The name Jumeira International stands for an extensive, competent and innovative client support services in all areas of auditing, business incorporation, accounting and business advisory services.

- A professional international firm, with regional focus offers wide spectrum of services for doing business in UAE and other GCC countries.
- Incorporated in the year 2000, in UAE, currently have 7 offices in UAE and office in India.
- While based in UAE, we provide wide range of services with many international destinations , free zones and offshore authorities.
- We have already served for more than 500 audit and book keeping clients and more than 300 new company incorporations

# Who we are

- Jumeira International was established by a team of professional accountants with a vision to provide world class management advisory services to several facets of enterprises in the Private, Government, Non-Government and Academic Sectors. We are expert business consultants who can provide you with excellent end-to-end solutions for your offshore company formation requirements anywhere in UAE. Especially in Dubai Company Formation could be a hassle free task if you partner with us
- Qualified professional core team members to take care the clients requirements , both simple and complex.
- We are working very close to all the local and international bankers located in UAE for all kind of account opening and corporate finance services.
- Deployment of expertise in variety of service portfolios within our organization. Each division is headed by qualified and experienced team leader.

# Audit And Assurance Services

Jumeira International has a complete range of audit assurance and accounting services to meet your business needs. We are registered Accountancy Firm under the Ministry of Commerce, UAE that enables us to carry out the audits under the Commercial Company Law and under regulatory requirements. Our audit and assurance services include

- External Audit
- Information Technology Audit
- Internal Audit
- System Study

# Accounting & BPO

We can undertake bookkeeping and prepare management accounts in any format under any timeline and as frequently as you require. Our experienced team can prepare the accounts accurately on a timely basis as per the statutory requirements. Our value is that we assist with the interpretation of the accounts to help you make the best business decisions. Our auditing and assurance services are focused to enhance the standards of the corporate processes.

Companies today operate in a volatile environment. Changes in terms of markets and technology create opportunities and risks, both internal and external. Successful entrepreneurs seize the opportunities whilst mitigating major risk.

Our internal audit team offers a dedicated commercial approach to help you control and improve your business. Independent audit assurance from us is sure to enhance your business and its reputation with existing customers, potential new investors and providers of finance

Our independence enables us to stand back and provide impartial advice. At the same time we hope to become a valuable part of your team, providing constructive and commercial input.
