LOOC (R)Kerbal22/(Kerbal22) ([JMP](#)): This is more of a private thing, and i prefer it stay that way.

LOOC (R)Jason Finn/(Tomixcomics) ([JMP](#)): oh. uh, cassie said i can invite people o.o

LOOC (R)Jason Finn/(Tomixcomics) ([JMP](#)): that i know, she said its against the rules

LOOC (R)Niklaus Nox/(XanderDox) ([JMP](#)): Private is kinda not that fun... it'd be nicer if it was on the forums... But yeah, since its yours its up to you I guess

LOOC (R)Niklaus Nox/(XanderDox) ([JMP](#)): I just dont like the idea of leaving people out

LOOC (R)Niklaus Nox/(XanderDox) ([JMP](#)): Yes?

DOOC Kerbal22: Xander, we're not putting it on the forums for a good reason.

DOOC XanderDox: Whats the reason?

DOOC Kerbal22: Whenever we mentioned it it generated a shitstorm.

DOOC XanderDox: Shitstorm? About what?

DOOC XanderDox: I dont see why people wouldnt want this, its amazing

DOOC Tomixcomics: you just discovered an awesome big house server, that is beyond awesome, and you were just invited to, and the first th ing you do when you cmoe here is ctiricize and complaina botu not being invited sooner?

DOOC Kerbal22: Blame the administration.

DOOC Kerbal22: Of Aurora.

DOOC XanderDox: I'm more upset that everyone isnt invited, rather than not being invited myself until now

DOOC XanderDox: Although, iv eput in a house request

ADMIN LOG: [Crescentise](#)/(Luna Fountain) has ghosted. ([JMP](#))

DEAD The ghost of Luna Fountain now prowls among the dead.

DOOC Tomixcomics: a house request? what? wehre? already?

DOOC Kerbal22: I'm with cassy in the fact that i don't want the Aurora admins near the server.

DOOC XanderDox: Aurora Admins have no control here though, its just like Skype RP, they cant say nothing

DOOC XanderDox: Just ban them all

OOO XanderDox: ;P

OOO Crescentise: This is Niklaus Nox!

She is wearing a captain's jumpsuit.

OOO XanderDox: Thanks for the invite Tomix, but I don't think I'll play here overly often :/ It just seems really... I don't know... Slap to the facey.

ADMIN LOG: [Kerbal22](#)/(Arabella McClymonds) jumped to [XanderDox](#)/(Niklaus Nox)

OOO Kerbal22: oh hey cassy added a new button.

OOO XanderDox: IM a very acommunity minded person, which is why I revamped lore apps to be more Community-involved

ADMIN LOG: [Kerbal22](#)/(Arabella McClymonds) told [XanderDox](#)/(Niklaus Nox) that ERP has been detected, and spiders will be on their way.

OOO XanderDox: Yo, Tomix

OOO XanderDox: <http://bodka.is-best.net/wp/>

OOO Tomixcomics: ...i don't htink it's a slap to the face, i didn't even know they'd rather keep out the admins until just now

OOO XanderDox: I don't see why they're afraid of Admins

OOO Tomixcomics: i thought they only don't mention it on the aurora because of the rule forbidding linking to other servers

OOO Cassy_jenelle: Alrighty. So, here's the story.

OOO Cassy_jenelle: I created the House Server back in March as a little thing between me and four friends. We were RP'ing a tea party.

OOO Cassy_jenelle: It was really small, and there was no plans to extend it forth. It was simply an alternative to skype (y'know, the advantages being visuals).

OOO Cassy_jenelle: So, it fascinated people, and more people got invited and all. Then people wanted their homes and houses. I was okay to it, since it was only like three to five people I knew at the time.

OOO Cassy_jenelle: Next thing you know, friends told friends, then those friends told their friends. Aurorans knew, Hypatians knew.

OOO Cassy_jenelle: And now, we have a few dozen houses on here. I don't mind that at all.

OOO Cassy_jenelle: Kept it a secret from Aurora staff because as you're aware, a lot of forum politics is going on, and I knew that this place might feel like an "attack" on Aurora and might bring negative attention.

OOO XanderDox: Skull himself said he wouldn't mind an Apartment server, he just wouldn't make one himself

OOO Tomixcomics: yeah, id ont' think they'd mind as long as it's kept veyr clear this place is not part of the official aurora in any way mroe than, say, deciding yourself what your character's backstory is

OOO Cassy_jenelle: House server is definitely not intended to do that, and I am glad a lot of people like the server. I've been keeping it down-low because I know that the more people are here, the more it'd need to be maintained and moderated; whereas if it's kept within friends you trust it is usually safe.

OOO XanderDox: Really, you could post it in the IC forum section as Property For Rent, so few people visit that part of the forums, and only dedicated RPer's really do,

OOO Cassy_jenelle: Yep, I've always told people that this place has no affiliation with Aurora, and the only relation is the Aurora lore - which has been kept in request by people who want to port their characters.

OOO Crescentise: Word would spread any way you look at it.

OOO XanderDox: They could PM you a tenant application, and then you could give them the house request thingy, and once you're done with that, give them the IP,

OOO Cassy_jenelle: For respect of Skull, I've chosen not to do that because it could cause trouble. Instead, I have plans to do that on the website.

OOO Tomixcomics: on the website?

OOO Cassy_jenelle: the website linked in the MOTD. yes

OOO Tomixcomics: and i'm confused... does or doesnt skull know about this place?

OOO XanderDox: What you're currently doing is sneaky, and I'm not fond of it, and I don't feel like being apart of it, as I don't wish to get into trouble for being part of a sneaky thing... Honestly they'll be more mad you hid it.

OOO Tomixcomics: xander, i really don't htink they would?

OOO Tomixcomics: cassy iusn't doing anythign wrong

OOO XanderDox: <I's a member of Loreteam, and does not approve of how Biesel looks, even if its is fucking gloriously pretty

OOO Crescentise: Xander, quit it.

OOO Cassy_jenelle: I've also asked people on this server (which, speaking of that, I need to remind Jamison Stamos) not to link to this server on forums, LOOC, OOC - which is the reason it's not spread.

OOO Crescentise: It's Cass' and Kerbal's.

OOO Crescentise: They decide what to do with it.

OOO Tomixcomics: yeah, cander, you're being a bit... abrasive

OOO Tomixcomics: *xander

OOO Kerbal22: Alright, Xander, i'm going to be brutally honest about what i'm about to say.

OOO XanderDox: I'll leave. I won't be a part of something like this, its just against who I am.

OOO XanderDox: And I will not be staying to read that ^ ^ ^

OOO Cassy_jenelle: Remember, this is not an extension of Aurora. This was only really intended to be an alternative to skyping RP.

OOO Tomixcomics: xander!

OOO Crescentise: Classic.

OOO Kerbal22: Good riddance.

OOO Tomixcomics: yeah, this doesn't undermine the aurora in any way

OOO Tomixcomics: oh my god you guys, i am so sorry, i had no idea hee would react this way

OOO Cassy_jenelle: I just don't understand the mentality of people.

OOO Cassy_jenelle: It's okay Tomix, you didn't know.

OOO XanderDox: I apologize for rudely leaving like that without entertaining your explanation,

OOO XanderDox: It was not polite of me,

OOO Cassy_jenelle: I don't understand Xander, what could we possibly do?

OOO XanderDox: I cant suggest anything that you've already said you wont do

OOO XanderDox: Because you're afraid of politics

OOO Cassy_jenelle: It's not as simple as being afraid of "politics" per se.

OOO XanderDox: The Aurora Administration wont do anything, they /cant/ do anything, even if you linked it on the forums, they wouldnt,

OOO Cassy_jenelle: There so many legitimate reasons of why we've done things the way they have been done - and it's not just the admins we're talking about.

OOO XanderDox: If its the lack of moderation, then whitelists, an application system, would be simple

OOO XanderDox: So bad peopel, dont get in

OOO Cassy_jenelle: Linking to other SS13 servers on Aurora forums? That's asking for trouble.

OOO XanderDox: I dont think it'd be considered a server, as its private.

☐☐☐ XanderDox: More of a visual out-of-game RP

☐☐☐ Cassy_jenelle: Secondly, I have a job. Developing a server + Managing a Team of Staff + Keeping up with maintenance of the server will eat up my free time.

☐☐☐ Cassy_jenelle: This place still is considered competition.

☐☐☐ XanderDox: Delegation of tasks is key.

☐☐☐ Cassy_jenelle: I do recall some side eyes happening when Mirk was spreading this around to his potential mates.

☐☐☐ The ghost of Hycinth now prowls among the dead.

☐☐☐ Cassy_jenelle: I work as a freelancer, I have quite a bit to do in the day.

☐☐☐ Tomixcomics: okay, hang on imma type something out here

☐☐☐ Hycinth: cass also has to snuggle everyone at least once a day

☐☐☐ Hycinth: it;s requires

☐☐☐ Kerbal22: Oh, Xander, you're back.

☐☐☐ XanderDox: Yes, I returned and apologized

☐☐☐ Kerbal22: Since you so rudely left before i had a chance to speak my mind..

☐☐☐ Tomixcomics: xander, this server isn't trying to compete to the aurora or be a premium membership club. its supposed to be a sort of visual playplace for people to play, either to expand their own lore, in a way they could do ont heir own even before. cassy didn't creat eit for the puprpose of being a mass-player running server with hardware and such, she created it because she thoguht it would be a ltitle cool thing. she is not saying people cnat be invited, or that only certain people can. hence why i invited you, anyone can invite anyone they want to RP with, the only law was to respect the aurora's rules about posting links to servers and not posioing about it there.

☐☐☐ Tomixcomics: it is not officialy associated with the aurora in any way shape or form

☐☐☐ Tomixcomics: and as such, i dont thinkt he admins would mind it even if they knew about it

ADMIN LOG: Kerbal22 deadmined themself.

☐☐☐ Kerbal22: I am speaking as a player, here.

☐☐☐ Kerbal22: Fuck off Xander. This is a private, personal project. I support this project by hosting it, Cassy has made something wonderful that we want to keep among friends and not the masses. You can go ahead and whine about it but we're not opening this up until we think we safely can. So, without any respect, please fuck off with your mary-sue ass.

☐☐☐ XanderDox: And this is why I left without allowing you to speak your mind, because you've made an ass of yourself.

☐☐☐ Tomixcomics: Oh my god.

☐☐☐ Kerbal22: You've spend a good amount of time doing the same.

☐☐☐ Kerbal22: Don't dish out what you can't take.

☐☐☐ XanderDox: You've lost my favour. Enjoy this little project, and goodbye. *tips hat* it really is beautiful Cassy, Its a wonderful concept.

☐☐☐ Tomixcomics: guys. what the heck. no insults. please. i thougth we were trying to ahve a civilized disucssion about this

☐☐☐ XanderDox: I wish you all the best

☐☐☐ Hycinth: >You've lost my favour.

☐☐☐ Hycinth: what is this I don't even

☐☐☐ Kerbal22: I don't need your favour you pompous ass.

☐☐☐ Tomixcomics: guys... please. please please please let's not resort ot namecalling

☐☐☐ Tomixcomics: please?

Loow: Is everyone getting along?
Tomixcomics: no, i invited xander, it ended badly :(
Loow: I'm here to politely ask that everyone be polite.
Kerbal22: I gave Xander a peice of my mind.
Loow: You were an asshole.
Kerbal22: And Xander hasn't been one?
Loow: Let me say that again
Loow: You were incredibly rude.
Kerbal22: I'm going to be honest, Loow.
Loow: Part of life is learning to be a better person
Loow: You've got to learn to do that.
Kerbal22: I have treated Xander with respect at every encounter, even when i hated his damn guts.
Loow: Evidently not.
Kerbal22: But there is a point where i say enough.
Kerbal22: And i had enough.
Tomixcomics: kerbal, xander was rude, he then came back to apologize about it. you resulted by escalating it and name calling
Kerbal22: So, there.
Tomixcomics: xander might've been pompous but he didn't sling insults.
Hycinth: tomix
Hycinth: XanderDox: You've lost my favour.
Hycinth: XanderDox: You've lost my favour.
Loow: Pardon?
Tomixcomics: yeah, he did that after the name calling
Hycinth: JUST A REMINDER THAT IS A THING THAT XANDER SAID
Hycinth: regardless of who started it? That is the most self-important, inflated-ego thing I have EVER HEARD
Hycinth: like holy shitburgers.
Hycinth: that is
Hycinth: hilariously socially-inept
Tomixcomics: again, im not saying he wasn't pompous, he was pompous as hell, but i think that after he came back to APOLOGIZE for his behavior and then being met with three mentions of "fuck off" in one sentence, some negativity on his part can be expected
Hycinth: to think that anyone cares about his "favour"
Erik Tiber: gefshdg
Tomixcomics: anyway, I'm sorry I invited him. I mistakingly assumed he would enjoy the server.
Erik Tiber: sorry tomix i know i was not wanting that either\
Tomixcomics: my apologies for bringing in negativity you guys :(
