Possible Kelp Grid Associated With MRD 168:084 Stone Fish Trap

Description

To the north of the Stone Fish Trap MRD 168:084 is a Kelp Grid, most of the stones are buried but enough remain visible that a grid is discernible in several places. The grid runs from the shore out to the sand and measures approximately 105m N/S by 140m E/W.

Taken from the foreshore showing the possible Kelp Grid and the main body of the Stone Fish Trap MRD168:084

Taken from the north looking south across the Fish Trap showing the alignments.

Taken from the north looking south across the Fish Trap showing the grid extending onto the sand.

Taken from the sand looking SE across the grid, in the foreground is part of the kerb wall.

Taken from the southern end of the grid and looking north towards the fish trap, on the left hand edge you can see more of the kerb wall.
