Feidiou 6, Ilioupolis - Athens

## EDUCATION

---

Computer Science

Sept 2011 — Present

*Athens University of Economics and Business*

## WORK EXPERIENCE

---

Vanderbox PC

November 2014 — Present

*Full Stack Developer*

Started as an Android Developer, by working on several B2B projects that my company had me assigned to. These projects were outsourced for external Development by big companies (can provide detailed information if needed). Later on I decided to try my luck with Backend Development and started writing several Backends that supported company Internal Apps or projects for external clients. During this period I also got down with using several Amazon Web Services like EC2, S3, Lambda, CloudFront and Elastic Transcoder (can provide detailed info on each use of a service).

I also started writing iOS Apps using Swift but due to time limitations and work load I had to abandon that part of Development.

Plugle Project - Google Launchpad Athens

October 2013 — December 2013

*Lead Android Developer*

Created a prototype application that communicated with an Arduino board through the local network in order to remotely control electrical appliances. The application, as shown in demo, has just a basic UI because of the short time we had to develop the prototype.

**Project Demo** - <http://goo.gl/siBEh1>

Athens University of Economics and  
Business

October 2013 — February 2013

*Assistant System Administrator*

Successfully completed a semester as Assistant System Administrator at CSLabs of Informatics Department at Athens University of Economics and Business.

**University Certification** - <http://goo.gl/cwi9e9>

S.D.S. Game Studios

Jan 2010 — Jan 2012

*System Administrator*

# PROGRAMMING LANGUAGES

---

Java(Android)

Javascript(Node.js mainly)

C++(little experience, only during academic years)

Swift(little experience, due to work and time load)

## COMPLETED PROJECTS

---

As an Android Developer I have completed several Applications:

1. Academic Schedule: An application for the daily schedule of AUEB's student in order to bridge the gap between an important service and the new technology. (<https://play.google.com/store/apps/details?id=com.auebcsschedule.ppt>)
2. ΑΟΔΕ: An application for the Greek Schools, containing tests and quizzes. (<https://play.google.com/store/apps/details?id=com.main.aode>)
3. ΑΟΘ: Similar to the above application but in different section of education. ([https://play.google.com/store/apps/details?id=com.aoth\\_app](https://play.google.com/store/apps/details?id=com.aoth_app))

Can provide info for company projects that I have completed.

## QUALIFICATIONS

---

Lower Certificate by Cambridge University in English

Zertifikat by Institut Goethe in German

## RECOMMENDATIONS

---

Recommendations provided upon request.

## INTERESTS

---

I am interested in Developing applications in Mobile Platforms, such as iOS and Android (where I already have 4 years of Development experience). I also like Backend development and everything that is related to making a Mobile App's

"life" easier.

I like Table Tennis and enjoy everything related to Technology or good music.
