In this report, you'll discover how you can generate a six figure income practically for free, in a real online business that offers literally thousands of products, as well as financial and utility services.

There will be little to no cost involved. There will be little to no money out of your pocket. You don't need any experience. There's no personal selling involved. You don't need any special knowledge or ability.

All you need is reliable internet access, the ability to follow directions, and the desire to succeed. If this describes you, then reading this report could be the beginning of making all those dreams come true. Read it all the way through, and print it out so you can have it handy to read again. Read it as many times as you need for the realization to sink in that possibly for the first time, you actually have a chance to make the income you've always wanted, because this is something that you can do.

# THE IDEAL HOME BUSINESS

There are plenty of people who are looking for ways to make money, especially from home. People are looking for something that's honest, legitimate and offers real value. They want something that's easy enough to do and affordable to start and run. Something that they would be proud to offer to others and that they would use themselves.

Here's how you can have all this with little to no out of pocket cost to you.

This is what you get with an ASN business. ASN stands for "All Solutions Network." ASN is a company that gives you a free commercial website that offers nearly everything that people shop for everyday, even legal, financial and utility services. There are solutions for nearly every need. That's why it's called the "All Solutions Network." When you get a free ASN website, you're in business. You get a fully automated website with your unique ID linked to it. With ASN you can start with little, or even no money out of pocket and with a consistent effort, you can easily begin to build the kind of business and income you've always wanted. I'm going to show you exactly how to do this.

The ASN system is a real business designed to allow anyone to develop, build and profit from the sale of merchandise and services with no personal selling, no retail sales experience and little, or even no money out of pocket.

The business is simple, but there are things that you need to know in order to make your experience with ASN a smooth and enjoyable one. So read through this report carefully. I've taken a lot of information about ASN and broken it down into a few main points that will help you if you'd like to get started.

## **HOW YOU MAKE MONEY WITH ASN**

ASN uses a "points" system from which you make money. You can also earn direct cash commissions from sales of the services that ASN offers, but earning points is the main way that most people make money in their ASN business, and there are several ways to earn points when you start a business with a free ASN site.

For example, there are nine profit channels in ASN. Seven of these channels involve generating points that earn you cash. One involves earning cash directly but no points, and one earns commissions as well as points. Below are the nine ASN profit channels.

### **1. Generating Points From The Free Offers**

You can earn points when you, or a visitor takes advantage of the free offers that are on your ASN site. Get a free insurance quote and you earn points. Check your credit for free and you earn points. Subscribe to a free trial offer and you earn points. Take part in a free survey and you earn points, and so on. In fact, many people with little to no money have started out building their ASN business solely by taking advantage of these free offers, getting points as a result, then investing some of the money from their profits back into their business in order to grow and maintain it.

This way, no money ever came out of their pockets, just their profits.

**This is the way that ASN makes it possible, even if you have little, or even no money to start and grow a profitable business.**

### **2. Generating Points From Retail Sales of Products and Merchandise**

ASN provides you with the opportunity to easily earn points from retail sales of products and merchandise, with no experience or personal selling. Each free ASN site is the equivalent of an online store with thousands of products that people shop

for everyday.

Do you order online from Walmart? Do you know anyone who does? Whenever you, or anyone else orders online from Walmart or any of the other retailers that are on your ASN site, you earn points. And remember, you never pay a cent for the site. It's totally free!

An ASN site offers shoppers thousands of products through major retailers like Walmart, Best Buy, Target, Amazon, Payless, Macy's, etc. ASN makes shopping easy, fun AND profitable.

When you or anyone else makes a purchase from one of the many retailers on your site, you earn points towards cash each month. It's like having your own chain of major retail stores that people know and trust.

Need something that you can order online? Just use your own site and earn points that will become cash for you.

As an extra incentive, ASN also has its own retail brands to shop from on the site, and you earn even more points whenever you or anyone makes a purchase from these ASN associated retailers. And remember, the more points you accumulate, the more money you make. **So if you or anyone else is going to shop online, whether it's for products, merchandise, legal services, financial services, or public utilities why not do it from your own site and earn points from what you or anyone else would normally do?**

### **3. Generating Points and Commissions from Sales of Services**

You can earn direct cash commissions of anywhere from \$30 to \$1500 when anyone, including you, uses the legal, financial and utility services provided through your ASN site. Plus you can earn anywhere from 8 to 40 points along with your commissions.

These services range from Bankruptcy Help, Car Loans, Credit Repair, Home Loans, Mortgage Negotiations, Taxes, Credit Cards, Bank loans, and much more. There's also utility services like gas, electric, internet, cell phones, etc. Your job is simply to let people know that these money saving services are available to them. Just direct them to your site. ASN and the companies offering the services do the rest. **You earn the commissions. (see the "Services" section at the end of this report)**

#### **4. ASN Profit Sharing Infinity Fund Bonuses**

Thanks to ASN's unique profit sharing system, when you accumulate points, you also earn from the accumulation of the points, purchases, quotes, trials and sales of every member and visitor to EVERY SITE in the entire ASN network of over 200,000 sites worldwide! You can earn from it all! 100 points is usually worth between \$100 and \$500, or more. Get a more detailed explanation here...

<http://somethingyoucando.weebly.com/profit-sharing-infinity-funds.html>

#### **5. Group Bonus Overrides**

Definitely the most advantageous, exciting and potentially lucrative way to make money with an ASN business is to have a large network of stores (i.e people in business in your network, with their own free websites) under you. Similar to having a major retail company with hundreds of branches, the potential for you to earn here is virtually unlimited. **And again, the great thing is that you can do this with little to no money out of pocket!**

With ASN, not only is it possible for you to profit from your own online store, but also from an unlimited amount of online stores that you and others open under you. When someone opens a store because you referred them to ASN, you make a percentage of whatever profit their store generates. This is called a Group Bonus Override. And if they have people opening stores as a result of their referrals, you

make a percentage of whatever profits those stores generate as well. In fact, the great news is that this branching out process continues for 10 levels down in your business. (see an example here)

(<http://somethingyoucando.weebly.com/10-level-3x3-model.html>)

This means that eventually you could have what amounts to hundreds of online stores from which you are earning a percentage of the profits. This is possible without a dime having to come out of your own pocket, because you, if you wish, can start by simply taking advantage of the free quotes, free trial offers, free surveys, etc. that you find on your site, in order to start accumulating points in order to qualify for these overrides. (see Group Bonus Overrides)

<http://somethingyoucando.weebly.com/group-bonus-overrides.html>

## 6. Group Bonus Factoring

ASN increases the percentage of the amount that you earn on each level of your network of stores, anywhere from 150% to 250%, when you have just 5 or more first level members (stores) in a month who together have generated 50 or more points. Each month that this happens, you'll qualify for Group Bonus Factoring. **This could more than double the amount that you could earn from the Group Bonus Overrides mentioned above.** (see Group Bonus Factoring)

(<http://somethingyoucando.weebly.com/group-bonus-factoring.html>)

## 7. The Mentor Bonuses

ASN is a system of people helping people. When you refer others to ASN and they get their free website and actively begin to use it and build their business, you receive points for the points that they generate, when you qualify. These points that you receive, are then added to your total point accumulation (CBV or Commissionable Business Volume) which helps to further increase your earnings because **the more points you accumulate, the more money you make.**

(see Incentive Bonuses)

(<http://somethingyoucando.weebly.com/the-incentive-bonuses.html>)

## 8. The Start Up Bonus

This is another bonus where you receive points, when you qualify, for the points that the stores on your first level generate. ASN makes it as easy as possible for you to earn points and build whatever income you desire. **Remember, this can be done with little to no money coming out of your pocket, ever.** (see Incentive Bonuses)

(<http://somethingyoucando.weebly.com/the-incentive-bonuses.html>)

## 9. The Manager Training Bonuses

Just as with any business, online or offline, your success depends on the success and participation of others. In this case, the more profitable and successful the stores in your network are, the more profitable and successful you will be.

These training bonuses are added monetary incentives for you to be active in helping the stores in your network be profitable and successful. So when you refer others to ASN and they get their free website and you help them to actively begin to use it and build their business, you qualify to receive cash (not points) from these Training Bonuses when those people you referred generate at least 15 points for that month and your own site generates at least 15 points for that month. How much cash you receive each month depends on how many of your referrals generate 15 points. **The highest bonus that you can receive is \$5000, for each month that you qualify. That's in addition to all the other above bonuses you may qualify for.** (see Manager Training Bonuses)

(<http://somethingyoucando.weebly.com/the-manager-training-bonuses.html>)

That's basically it. This is something that anyone with internet access can do.

Making money in an ASN business is as simple as -

- 1. getting your free ASN site.**
- 2. Taking advantage of the free offers to generate at least 15 points**
- 3. Sharing this site and opportunity with others.**
- 4. Using the site for your own shopping and financial needs, while saving and earning money in the process.**

Remember, all you ever have to do is...

1. Get your free ASN site, use it.
2. Share it with others and help them do the same thing.

Get your free site right now!

## **SERVICES**

**"A service the public can't afford, is no service at all!"**

ASN is prides itself on providing quality services that not only solve problems, but can be afforded by those who need them. When you offer ASN services, rest assured your customers are getting premium service at fees they can afford.

Remember, with the retail products and merchandise you earn points from sales. These points are then converted into cash for you, through the different bonuses. On the other hand, with the services, you can earn direct cash commissions, as well as points. Just let people know about them and get them to your store. ASN and the companies offering the services do the rest. Commissions for services are paid weekly.

## **ASN HOSTING**

It doesn't get any easier than this. Anyone needing hosting really should choose the ASN hosting service. If you have a website and you are not using ASN hosting, you

are losing money. Plus, when ASN hosting services are sold through your site, it creates huge monthly residual income for you. **You earn the monthly point value of each purchased package, each month for as long as the service is in effect. For example, if someone orders a monthly "Eagle" hosting package on your site, you earn 20 points every month that the package is renewed. This guarantees you enough points to be paid profit sharing infinity bonuses and group bonus overrides on your entire downline every month!**

### **HOME MORTGAGE REDUCTION AND DEBT NEGOTIATION**

In today's economy, a vast segment of the population has a desperate need for help in saving their home. People want to keep their family home. The combination of credit, financial, bankruptcy, real estate and negotiation services that ASN provides, creates a synergy of professions that makes ASN

uniquely qualified to solve almost any real estate related problem. There is no such thing as a "one size fits all mortgage solution." Each mortgage situation is unique and requires its own personalized strategy. ASN diversity assures that an effective solution can be provided, that will address their needs, while you get paid for saving homes. If you or someone you know is in danger of losing their home ANY of the following reasons... the payments are too high, the balance is too high, payments are behind, property is in foreclosure, etc... and if they would like to lower the payments, lower the balance, stop foreclosure or even live rent free for up to 1 year or more from the first missed payment, and then get paid if and when you actually DO move, then contact the Mortgage Negotiation and Foreclosure Specialists. They can do or prevent all of this and more... and they can do it for a fraction of the cost of other companies. For more information and assistance please see

[http://allsolutionsnetwork.com/cgi-bin/d2.cgi/TB123270/Mortgage\\_Reduction.htm](http://allsolutionsnetwork.com/cgi-bin/d2.cgi/TB123270/Mortgage_Reduction.htm)

And ASN can still show them how to get into a home with absolutely no down. **You earn \$300 to \$1500 per funded loan, plus 40 points.**

Many members earn 50 or more points each month, in addition to the commissions, by simply placing "free home loan" ads. For more information and assistance please see
