Abundant Vine CSA Standards

Baked Goods: We try our best to cater to special diets and allergies. Although we follow professional standards when it comes to cleanliness and cross contamination, we can't guarantee foods to be allergen free in our home/farm based kitchen. We do however have many customers and family who have allergies (especially gluten) that can vouch that they have never had any reactions to our products. This is because of our strong desire that everyone should have great tasting products that make them feel healthy and happy.

Homegrown Produce: We are a proud member of the Minnesota Grown program. Our produce is not certified organic (expensive to do so!), but we follow even stricter standards, our own. We start with non-gmo (often heirloom/organic) seeds. Then we use only organic fertilizers and if nature cooperates- rain, otherwise well water from a local aquifer. We finish off by only using natural pest and weed controls (which usually means "by hand").

Organic/Natural Soap: We love making small batch organic and natural soaps. No animal products are used in our soap, only things like coconut oil, palm and olive oil, and of course exotic oils. We fragrance our soaps using only essential oil (no fake stuff!). Recipes vary, but we love to hear your feedback- or requests!!

If you aren't able to submit this via email- please scan & email, or print & mail.
