

**WHETHER YOU ARE BUYING, SELLING OR REPAIRING A  
TRANSFORMER, SOLOMON CORPORATION IS YOUR COMPLETE  
SOLUTION**

**SOLOMON**  
CORPORATION

**Solomon Corporation** is a full-service transformer rebuild and maintenance facility that specializes in sales and service of distribution transformers, voltage regulators, oil circuit re-closers and switches, as well as transformer parts and components. Now the largest rebuilder of oil-filled transformers, Solomon Corporation was originally founded in 1971 as a small transformer repair shop. In addition to sales and service, the company also offers technical support to the electrical distribution industry, as well as repair, recycling, and disposal of transformers, re-closers, and regulators.
