

Cosmos Outside Space Field Theory

COSMOS OUTSIDE SPACE FIELD THEORY (COSFT) by Supriya Ghosh

Supriya Ghosh , Physics (Hons.), Collage - Raiganj University Collage , University of North Bengal,

MBA (MM ,SYSTEM) , Institute of Modern Management , Kolkata

Working Place - Dealing Clerk , District Primary School Council, Uttar Dinajpur , West Bengal , India

Family - Spouse - **Mithila Ghosh Debnath** , Master of Music ,University of Calcutta

Daughter - Rajashri Ghosh Father – Nitendra Nath Ghosh , Retd.Govt. Service holder Mother - Jaya Ghosh Brother - Subha Ghosh , MA , B.Ed.

Born - 12- January – 1979 Address - Sudarsonpur , Raiganj ,pin – 733134 , Uttar Dinajpur , West Bengal ,India

Mobile no. - +917797855589

Facebook - <https://www.facebook.com/profile.php?id=100009209690500> (**COSMOS OUTSIDE SPACE FIELD THEORY (COSFT)**)

WE, THE LIVING AND NONLIVING BEING ARE THE EFFECTS OF REAL TIME SIMULATION OF GODs EQUATION (by Supriya Ghosh)

-- Supriya Ghosh

Universe is the Real Time Simulation of GODs Equation and Central System is the Real Time Simulation of COSFT -- Supriya Ghosh

GODs Equation in Complex Space by Supriya Ghosh

V = VISHNU / VISHNI

V i outer space = Integration Time = 0 to Time tense to infinity f (limit dimension tense to infinity f (v i)) d (f (v i))

where f (v i) = Integration Time = 0 to Time tense to infinity f (limit dimension tense to infinity f (Dimension i)) d (f (Dimension i)) Dimension = Mithila Ghosh Debnath = f (Mgd)

where f (Dimension i or Sb) = Integration Time = 0 to Time tense to infinity f (limit dimension tense to infinity f (X i , Y i , Z i , T i , Sg i , P

i , Ap i , infinity)) d (arbitrary)

where Sg i = Dimension in the Non Big Crunchable Cos-
moses

P i = Cosmos outside dimension

Ap i = Dimension in the Dark Non Big Crunchable Cos-
moses

GODs Equation by Supriya Ghosh

V = VISHNU / VISHNI

V outer space = Integration Time = 0 to Time tense to infinity f (limit dimension tense to infinity f (v)) d (f (v))

where f (v) = Integration Time = 0 to Time tense to infinity f (limit dimension tense to infinity f (Dimension)) d (f (Dimension))

Dimension = Mithila Ghosh Debnath = f (Mgd)

where f (Dimension or Sb) = Integration Time = 0 to Time tense to infinity f (limit dimension tense to infinity f (X , Y , Z , T , Sg , P , Ap

..... infinity)) d (arbitrary)

where Sg = Dimension in the Non Big Crunchable Cos-
moses

P = Cosmos outside dimension

Ap = Dimension in the Dark Non Big Crunchable Cos-
moses

Hypothesis 9 (GODs MIND PLAN)

Travelling to one Cosmos to another Cosmos possible when Limit Dimension tense to Infinity .

Hypothesis 1

COSMOSES are TIME LENSES

Hypothesis 14

Cosmoses are slowly vibrating. - Supriya Ghosh

Hypothesis 2

Outside of Cosmoses there always every action and equal opposite reaction occurs simultaneously or nearly simultaneously.

Hypothesis 3

Law of Attraction and Repulsion Cosmic force between two Cosmoses

Dutoo Cosmos er modhye Cosmic Akorshon bol (Su) ebong Cosmic bikorshon bol (Mi) porosporer somanupatik (Attractional Cosmic force (Su) and

Repulsional Cosmic force (Mi) between two Cosmoses are mutually proportional)

Hypothesis 4

If i throw a cricket ball outside Cosmos it will move forward infinite time and infinite Space (time tense to infinity)

Hypothesis 5

There is COSMOS OUTSIDE SPACE FIELD WAVE (f (ML)) outside of Cosmoses.

Hypothesis 6

There is a Cosmic Constant (Ra) regarding the Attraction and Repulsion Cosmic force

Hypothesis 7

Cosmoses are slowly movable (may be) . Hence this is the cause of 1) Cosmic Wave and hence this is the cause of 2) Cosmic Gravity

Hypothesis - 0

Ultimate Species are using INTER COSMOSES NETWORK COMMUNICATION SYSTEM to communicate Ultimate Species to other Cosmoses, that is one of the communication system to those NON - BIG CRUNCHABLE Cosmoses (f (Sg)) and other Cosmoses -- Supriya Ghosh

SYSTEM Equation 1 of SUPRIYA GHOSH ----

SYSTEM = Cluster of COSMOSES = Mithila Ghosh Debnath = f (M)

SYSTEM = Cluster of COSMOSES Step - 1

F (SYSTEM) = Integration Time= 0 to Time tense to infinity

(f (System 1) . f (System 2) . f (System 3) . f (System 4) infinity) d (f (Dimension))

Step - 2

F (BIG SYSTEM) = Integration Time= 0 to Time tense to infinity

(F (SYSTEM 1) . F (SYSTEM 2) . F (SYSTEM 3) . F (SYSTEM 4)

..... infinity) d (F (SYSTEM))

and so on.....

System Equation 2 of Supriya Ghosh's Equation

f (SYSTEM) = Integration Time = 0 to Time tense to infinity (Matrix f (v1) f(v2) f(v3) f (v4) infinity) d (arbitrary)

f (v) = Integration Time = 0 to Time tense to infinity (Matrix f (D1) f (D2) f(D3) f (D4) infinity) d (arbitrary) Where f (v) =

Super species

f (D) = f (Dimension) = In GODs Equation of Supriya Ghosh

System Equation 3 (Complex Space) of Supriya Ghosh

f (SYSTEM i) = Integration Time = 0 to Time tense to infinity (Matrix f (v i1) f(v i2) f(v i3) f (v i4) infinity) d (arbitrary)

f (v i) = Integration Time = 0 to Time tense to infinity (Matrix f (D i1) f (D i2) f(D i3) f (D i4) infinity) d (arbitrary)

Where f (v i) = Super species

f (D i) = f (Dimension) = In GODs Equation (Complex Space) of Supriya Ghosh

System Equation 4 of Supriya Ghosh

f (BIG SYSTEM) = Integration Time = 0 to Time tense to infinity (Matrix

(f (SYSTEM 1) f(SYSTEM 2) f(SYSTEM 3) f (SYSTEM 4) infinity)) d (arbitrary) System Equation 5 (Complex Space) of Supriya Ghosh

f (BIG SYSTEM i) = Integration Time = 0 to Time tense to infinity (Matrix

(f (SYSTEM i1) f(SYSTEM i2) f(SYSTEM i3) f (SYSTEM i4) infinity)) d (arbitrary)

Central System Equation 6 of Supriya Ghosh

f (CENTRAL SYSTEM) = Integration Time = 0 to Time tense to infinity (Matrix (f (BIG SYSTEM 1) f(BIG SYSTEM 2) f(BIG SYSTEM 3) f (BIG SYSTEM

4) infinity)) d (arbitrary)

Central System Equation (Complex Space) 7 of Supriya Ghosh

f (CENTRAL SYSTEM i) = Integration Time = 0 to Time tense to infinity

(Matrix (f (BIG SYSTEM i1) f(BIG SYSTEM i2) f(BIG SYSTEM i3) f (BIG SYSTEM i4) infinity)) d (arbitrary) Hypothesis 8

There is another Dimension (Ap) in the Dark Non Big Crunchable Cosmos made by Dark matter.

Hypothesis 9 (GODs MIND PLAN)

Travelling to one Cosmos to another Cosmos possible when Limit Dimension tense to Infinity .

Hypothesis 10

Non Big Crunchable Cosmos may be made by Dark matter.

Hypothesis - 11

There are different types of COSMOSES in the outside Space (name - Mithila Ghosh Debnath (f (Mgd))) of our current COSMOS , some types are

I) Dark Cosmoses , made by DARK MATTER (Name- Rajashri (f (Rj))

II) Big - Crunchable Cosmoses (Name - Nitu Jaya (f (NJ)))

III) NON - BIG -CRUNCHABLE Cosmoses (Name -
Supriya Ghosh (f (Sg)))

IV) Other Cosmoses (Subho Ghosh = f (Sb))

Hypothesis - 12

Light velocity within this Cosmos , Constant . But outside
of Cosmos and another Cosmoses , is there velocity of
Light Constant ?

Our Cosmos is not within another Cosmos, hence

Hypothesis 13

There is a COSMOS OUTSIDE SPACE FIELD CON-
STANT or SYSTEM CONSTANT

(Supriya Constant S) regarding the Attraction and Re-
pulsion Cosmic force between two Cosmoses. --- Hy-
pothesis by Supriya Ghosh

Hypothesis 15

Cosmoses are nearly Sphere Shaped -- SUPRIYA
GHOSH
