For Bunker Suppliers Hydra FuelPlus is Practical Solution to Fuel Quality Issues!

For the bunker suppliers who want to protect their hefty fuel investment against microbial attack, the answer is Hydra FuelPlus which is an Excellent Fuel Biocide Additive! It has proven to be the economic solution for improving the quality of fuel and its properties.

Hydra FuelPlus knocks out harmful microbes in Marine Fuels. Kills microbes completely within 24 hours, keeps protecting the treated fuel for up to 6 months.

Hydra FuelPlus is based upon dual isothiazolone chemistry and technology that has been proven to be highly effective against microbial growth for over 25 years. Isothiazolones are registered under the ECHA European Biocides Directive, REACH and by the EPA in the USA.

All of our products are manufactured to the highest specifications in our UK plant, which is accredited to ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007. Massive cost savings by buying direct from manufacturer.
