

# SKILL STATIONS

Fireground Training, LLC

## DONNING & LOW PROFILE

**Objective:** Complete donning and crawl under a vehicle/picnic table.

**Procedure:** Personnel will don gear, including SCBA, then proceed to crawl under a vehicle or picnic table. When they reach the other side, they will stand and clap.

## HITTING THE HYDRANT

**Objective:** Review hitting the hydrant.

**Procedure:** Give an overview of hitting the hydrant, reviewing procedures for forward lays and reverse-lays (hand-jacking). Have personnel rotate through the process.

## SEARCH

**Objective:** Demonstrate proficiency in search technique.

**Procedure:** Personnel will search in teams of two or three, conducting a primary of a hallway and two simulated bedrooms. One of the bedrooms will contain a baby mannequin. Masks will be obscured with Press-n-Seal.

## LADDERS

**Objective:** Demonstrate proficiency in ladder climbing, roof sounding, rolling ladders.

**Procedure:** Two personnel at a time. One will climb the ladder with the other butting. Climber will leg-lock about halfway up, lean back, then unlock leg and continue climbing to the roof. Climber will sound the roof physically and verbalize, walk approximately 20' across the roof. Butt-person will roll the ladder to meet climber at the predetermined point and butt ladder. Climber will climb down.

## RIT DEPLOYMENT

**Objective:** Demonstrate proficiency in use of RIT bag to get air to a downed firefighter.

**Procedure:** Crews will be told there is a downed firefighter out of air in the opposite bay (mannequin with pack). Using the RIT pack, they will place the firefighter on air utilizing whichever method they find appropriate. Masks will be obscured with Press-n-Seal.

## RADIO COMMUNICATION

**Objective:** Show proficiency in radio communication.

**Procedure:** Crews will be given a fire scenario in a table-top style delivery and will give appropriate benchmarks as the incident progresses.
