### Professional Summary:

With six months prior experience at a medical dispensary, I think you will find my knowledge of cannabis and it's medicinal and recreational properties extensive. I loved my time at the dispensary I worked at and developed a knack for recommending specific products for each individual's needs. Cannabis has been a major passion of mine for years now and I'm sure I would be able to answer any question a customer has. My customer service skills are exceptional; my heart is filled with compassion and I maintain a positive attitude, including under stressful situations. I also have money handling and general store experience such as running a cash register and see myself fitting in well with your shop.

### Core Qualifications:

- 🌿 Vast Knowledge of Cannabis
- 🌿 Punctual and Reliable
- 🌿 Compassionate & Professional Customer Service
- 🌿 Dedicated and Hard worker
- 🌿 Medical Dispensary Experience
- 🌿 Flexible Schedule
- 🌿 Cash Register Knowledge
- 🌿 Positive Personality

### Work Experience:

- 🌿 **Haven In Allyn Homecare, Allyn Wa** August 2015 - September 2015  
**Caregiver**

Working as a caregiver my responsibilities included giving out medication to the clients at regularly scheduled times, providing personal hygiene, moving and lifting clients and maintaining their overall health and well being.

**Exceptional Foresters Inc., Shelton Wa**

March 2014 - March 2015

**Living Skills Instructor**

As a living skills instructor I cared for adult clients with developmental disabilities. Much of my duties were the same as at Haven, however I also cared for clients on a more personal level. It was my responsibility to maintain a healthy, encouraging relationship with my clients and to help them with things such as taking them to their appointments, keeping track of their finances and looking out for their safety inside and outside of the home.

**Washington Conservation Corps, Belfair Wa**

October 2012 - September 2013

**DNR ORV Trail Crew Member**

During my time as a Department of Natural Resources Trail Crew member I was part of a team of 5 that worked on maintaining DNR trails and campsites. Our major projects were trail and habitat restoration which involved hiking several miles daily. Some of the specific tasks I had to do included tree felling, removing brush from trails, fence building, bridge constructing and deconstructing, silt fencing, weed eating, lawn mowing and trail building.

**Mari Meds, Belfair and Shelton Wa**

October 2013 - March 2014

**Cannatech**

At Mari Meds I learned a plethora of information about marijuana including the differentiating features and effects of Sativa, Indica and Ruderalis type plants, the effects of different chemicals such as THC, CBD, CBG and other cannabinoids, the proper way to maintain and care for your flower, and the differences in varieties of oils, waxes and concentrates along with a lot else. I specialized in helping customers find the right strain to help them with each of their needs and handled duties such as checking every patient for their valid medical identification card, weighing and dispensing marijuana, running the cash register and handling money, opening and closing of the shop, and caring for customers in a way that made them feel safe and welcome.

**Education:**

**North Mason High School, Belfair Wa**

Class of 2010

**High School Diploma**
