NATIONWIDE DAY OF ACTION

IT'S OUR
FUTURE

IT'S NOT OVER!

The deal unveiled in Atlanta has few trade benefits but **gives corporates a lot of power.** TPPA will:

- Restrict internet freedom
- Let foreign investors challenge our laws
- Restrict regulation on overseas investment
- Undermine climate action and green jobs
- Prevent new limits on mining, fracking and drilling
- Lock in asset sales
- Fuel financial crises
- Increase costs on copyrighted materials
- Stop 'buy-kiwi-made' policies
- Restricts how local government operates
- Raise Pharmac costs and control health laws

But the TPPA hasn't yet been signed, and won't be signed until at least February. Remember it's Cabinet, not Parliament that will sign this agreement.
