

## Ullman Sails Detroit

11/18/15

### Tip of the Week #3

#### Information System Starts Marking

Racing sailboats have a lot of moving pieces:

- Backstay (all types)
- Traveler
- Main and Genoa/Jib and Spinn Sheets
- Jib/Genoa Tracks
- Halyards
- In-Hauls
- Out Haul/Cunningham

Anything that moves should be marked and measured so you can start your system to repeat settings. Make a “Boat Log” to record your settings after the race.
