Forever 21
3880 N Mission Rd
Los Angeles, CA 90031

My name is Shea Flynn, I am a Los Angeles based editorial photographer. I have 8 years experience and a Bachelor degree in film and video production, from Columbia College Chicago. I am currently in search of work as a photographer.

I am a dedicated, hardworking individual, as shown through my work at React Presents where I am one of two creatives responsible for the photographing of all React Presents events; including 5 music festivals, 3 nightclubs, and various other large scale shows throughout the year. This includes the scouting and organizing of photographers, negotiating terms, searching for the best quality content to sell the event, and archiving of all content generated. I have attached my resume for your review and I would love the opportunity to speak with you in person.

Sincerely,

Shea Flynn
