WE NEED YOUR HELP: in order to build a community without any form of financial or business support is extremely difficult to maintain such big costs of building an Eco Village.

For the past year most of financial backing has been from the founder Guillermo Alarcon, but his personal resources have almost been used, so we ask humbly to our community for any form of financial support to maintain us alive and by helping us grow and achieve our mission which is to unite Eco Villages from around the world and establish an autonomous system based on our own belief systems and equality for us all.

Thank You for your support..

--Lemurian Embassy Project--

LEMURIAN FOOD PROJECT

Until recently Lemurian Embassy Eco Village started asking for food donations, we had to make this decision based on our financial risk we are posing in the moment, we do not have any financial backers or investors and we get very if non existent support from the world wide collective community.

Most of the meals we provide come from local farms in the Yucatan and our goal is to help and support local communities and create a common wealth economy as a true liberation to the industrialized western influence on the planet.

The donation we ask for food is symbolic, 3 meals for only \$6.00 US its incredibly cheap and if you compare this to your country you can barely buy a pop soda in Europe or in America.

We believe eating healthy is the core of our community and eating simple food and working long hours can take a deep toll on our body, our goal within the next couple of months is to raise the food donation price so we can get only organic meals delivered and by the time we can complement with our own organic produce we are currently farming in our land.

FOR THOSE INTERESTED IN DONATING MORE MONEY TOWARDS THE
COMMUNITY KITCHEN WE THANK YOU FOR YOUR SUPPORT!

Lemurian Embassy needs your help and support, we recently started an indiegogo campaign in order to raise funds to Build our sacred sanctuary, we need the help of the community and of yourself to keep us alive and continue the growth of Eco Villages worldwide, if you truly believe in community living, then please help us to continue operations and continue the development of our sacred temple..

We need help from people like you who have already experienced community living, you know how profound and special this reality is, so we urge you to donate monetary funds in order to keep us alive.

Most people don't understand it takes thousands of thousands of dollars to build an eco village, to start civilization from the ground up and specially from no monetary income coming in, save us into going commercial to keep us as a moneyless society, you can make the difference in our community..

We ask you after your experience in our embassy to think about everything you gained with us and to help donate for the person coming after you.

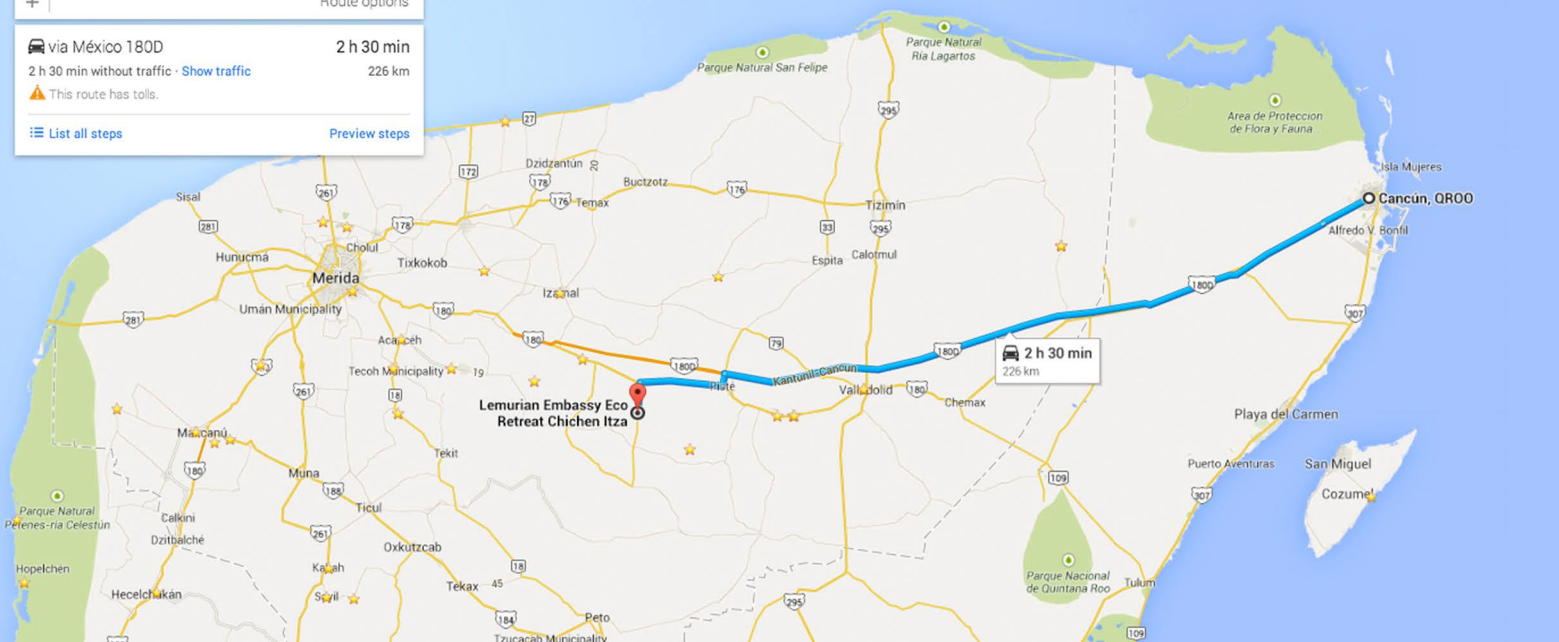

We thank you for your support

ELECTRICITY / INTERNET

LIMITED ELECTRICITY (MAY 2015)

As of MAY 2015, our current electricity model is still in the early stages, our electrical system wiring has began and 3 Living Modules are now activated with electrical power.

Due to the fact that we do not yet have our system array of Solar Panels, we only use the current electrical system (Gas Generator) as an engine to power up the Underground Water Pump Daily..

Sometimes we initiate the electrical grid while we are powering our underground pump..

We are hoping if we raise funds in the next couple of months to have the entire energy grid connected to the Solar System.

Want to Charge your Device?
\$50.00 Pesos to charge

Internet System in Lemurian Embassy

UNPLUG FROM THE WEB FOR SOME TIME!

Lemurian Embassy **DO NOT HAVE** Internet system, we are 8KM inside the jungle from isolated from any town what we have is access to Mexican Telephony Telcel Internet and Phone Coverage..

If you have an iphone 6 and newer phones with a broadspectrum antennae you might be able to reach their coverage network..

Sometimes we have up to 4 Mega Bits Download .

MEXICAN SIM CARD (TELCELL)

Get a Telcell SIM CARD, you can get one anywhere in the Yucatan Peninsula or around the entire country. once you have it installed then pay for a Internet Package

We recommend the **3 Gig Per Month** Package for 350 Pesos per month..

We are in the process of raising funds to buy an array of solar panels, once we acquire that system then our goal is to bring high speed internet to Lemurian Embassy Via Point to Point connectivity from Chichen Itza (Piste)

We are in the process of creating a fund raising campaign to raise funds to bring internet not just to our campsite but to local maya indigenous communities..

If you have an urgency to connect to the World Wide Web:

- 1.- The most reliable internet is in Chichen Itza (Piste)
- 2.- There are few cybershops in the village if Libre Union but its not so good internet but works
- 3.- You can use our temporary system of hotspot for \$75.00 Pesos per Hour.
(No Downloading, No Youtube)

INSURANCE / MEDICAL EMERGENCY

WE ASK ALL OUR VOLUNTEERS TO READ THIS:

We ask all of our volunteers and long term guest to read the instructional manual and to agree to all rules and regulations during your short and or long stay in our Village.

It is important that before you come to Mexico you have the proper medical insurance and or medical plan available in case of an Emergency.

Lemurian Embassy Eco Village Retreat holds no liability towards any accident or injury during your stay in our premises. We are located deep in the Mayan Jungles of the Yucatan, the closest town is Libre Union / Yaxcaba proximately 8KM, with very limited clinic for emergencies.

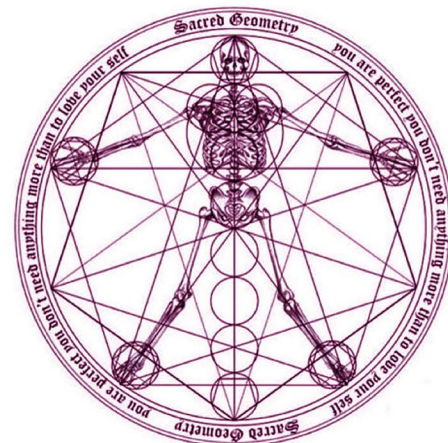

The biggest and closest hospital is Merida, located proximately 1.15 Minutes from

Lemurian Embassy; We have a medical kit and healing supplies available in our premises, but we lack of medical skills and of supplies. Therefore we ask all of our volunteers to get a medical insurance before traveling to Mexico.

If you don't really care and or think nothing will happen to you, that fine with us but we ask all volunteers no matter if they have insurance or not to sign a **"Liability Waver"** as soon as their arrival to the Embassy following the registration procedure.

After reading this page please sign the following page including all mandatory details mentioned on the questionnaire, if you require a liability waver in Spanish, German and Japanese please ask us in advance so we can prepare in advance..

If you have any questions or need any advise on what insurance to get Email: Lemurianembassy@gmail.com

JUNGLE ANIMALS & INSECTS

PREPARE AHEAD FOR JUNGLE

Lemurian Embassy is located in the heart of the Maya Jungle, a virgin habitat untouched by man for thousands of years, the eco-system and ecology of the land has numerous animals, insects and etc.

Most of this animals are harmless to humans, since most of the big cats like jaguars, ocelots, pumas, have been displaced to more inland territories away from humans, most of the wild life we get to spot is wild deer, and rodent creatures.

Snakes are the only threat to humans and there are many various types of snakes located across the tropical areas of the Yucatan, chances of getting bit by snakes are minimum unless you are walking off in the unmarked jungle paths or you are not being cautious and aware.

We have a medic kit available in case of an emergency with a powerful anti-venom and serum to heal most types of snake bites in case of an emergency, we also have a natural antiseptic plant that cures and prolongs snake bite in order to reach in time for hospitalization.

We urge you to bring a **"Flashlight"** with you at all times and be constantly aware of any treats, not to be paranoid but just aware of your surroundings.

We ask you to stay along the paths and alert the staff of any strange activities..

SURVIVAL SKILLS & CO-EXISTING WITH THE DIVINE GAIAN MIND

LEARN TO LIVE IN THE JUNGLE

Be aware of your surroundings such as your beds, and seating areas and follow some of our tips in how to survive in the jungle:

- 1.- Always check your shoes and clothing from insects before you wear them.
- 2.- If you are bitten by something make sure you identify it so that we can then give you a cure afterwards.
- 3.- Most insects, scorpions and poisonous insects like tarantulas are harmless except for the strong pain that comes with the bite.
