**GWAGS SUN  
IN COURT!!!**

*Guilty or Not Guilty?*

Is it not amazing how the City of Gwagwalada experience summer all through the year. Afternoon lectures don't always go down well with students, all thanks to the fact the SUN indeed decided to take our matter personal.

You think you are fair and fresh, think again when you get to Gwags. Unless you got superpower cosmetics, Gwagwalada Sun is so gonna operate on your skin to an extent you may almost wanna drop out of the University for good.

Gwagwalada sun is so hot the birds fly no more in order to avoid their feathers being burnt in the hot atmosphere, all they do in G/lada is walk on the streets. Chickens lay boiled eggs, and even farmers harvest boiled potatoes.

New Flame don tire for the matter! So we don decide to charge this Sun to court! And we are going to let you be the judge! Guilty or not guilty? Lets find out! Especially from the new students.

**NEW FLAME**

# ESE AGARRY

Agriculture 100 Level

Not guilty. The sun is beautiful to me. Yes, it is so hot, but I believe the usefulness is worth the hotness. For example, you can wear your clothes the same day you wash them because of the speed at which the Sun dries it.

# UCHE OSI

Economics 300L

Guilty o. There is really nothing good about this Sun. It is crazy. It is capable of running somebody mad. It is not conducive for learning at all.

# THE WORLD ONLY CARES ABOUT

# WHAT IT CAN GET FROM YOU

Picture this! Lets say that your boyfriend, girlfriend, bestfriend or coursemate has just been shot in front of megaskreen street.. He or she is lying on the ground, bleeding and screaming. A guy rushes up and says, "Step aside." He looks over your loved one's bullet wound and pulls out a pocket knife and guess what, He is going to operate right there on the street.

You ask, "Are you a doctor?"

The guy says "No",

You say, "but you know what you're doing, right?"

You're an old Army medic, or...."

At this point, the guy becomes annoyed. He tells you that he is a nice guy, he is honest, he is always on time. He tells you that he is a great son to his mother and has a rich life full of fulfilling hobbies, and he boasts that he never uses foul language.

Confused, you say, "How does any of that f\*\*king matter when my (girlfriend/boyfriend/bestfriend/coursemate) is lying here bleeding! I need somebody who knows how to operate on bullet wounds! Can you do that or not?"

Now the man becomes agitated – why are you being shallow and selfish? Do you not care about any of my other good qualities? Didn't you just hear me say that I always remember my girlfriend's birthday?

In light of all of the good things he does, does it really matter if he knows how to perform surgery?

In that panicked moment, you will take your bloody hands and shake him by the shoulders, screaming, "Yes, I'm saying that none of that other shit matters, because in this specific situation, I just need someone who can stop the bleeding, you crazy asshole.

So here is the annoying truth dear. You are in that very situation every single day. In this world, you are the confused guy with the pocket knife, while the rest of the society is the bleeding gunshot victim.

If you want to know why society seems to ignore you, or why you seem to get no respect, it is because society is full of people who need things.

They need houses built, they need food to eat, they need people to help them in academics, they need entertainment, they need fulfilling sexual relationships.

The day you were born is the day that you arrived at the scene of that emergency, holding your pocket knife. So therefore, by virtue of your birth – the very moment you came into the world is the very moment you became part of a system designed purely to see to people's needs.

Either you will go about the task of seeing to those needs by learning a unique set of skills, or the world will reject you, no matter how kind, giving, and polite you are.

You will be poor, you will be alone, you will be left out in the cold.

Does that seem mean, or crass, or materialistic?

You may ask, What about love and kindness – don't those things matter? Of course. As long as they result in you doing things for people that they can't get elsewhere.

# WHAT U ARE INSIDE ONLY MATTERS

## BECAUSE OF WHAT IT MAKES U DO

They are aspiring writers. They think of themselves as writers, they introduce themselves as writers at parties, they know that deep inside, they have the heart of a writer. The only thing they are missing is that minor final step, where they actually f\*\*king write things.

But really, does that matter? Is “writing things” all that important when deciding who is and who is not truly a “writer”?

For the love of God, YES!

Nobody gives a damn about who you are, what they are concerned about is “the product of who you are”

Inside, you have great compassion for poor people, Great!. Does that result in you doing anything about it? Do you hear about some terrible tragedy in your community and say, “oh, those poor children. Let them know that they are in my thoughts”? Damn you crazy bastard! Find out what they need and help provide it joor!.

Don't you have that annoying religious friend whose only offer to help anyone ever is to “pray for them”? Doesn't it drive you nuts? I am not even commenting on whether or not prayer works; it doesn't change the fact that these people chose the one type of help that doesn't require them to get off their comfort zone.

How many of you are walking around right now with that thought and belief that you are one of the most intelligent in your department, but yet your GP says otherwise. It is either you don't make use of your intelligence at the time and place it is needed most or you are just another psycho who needs urgent help. Applying strengths at the wrong place is nothing but weakness and also intelligence unused is no intelligence at all.

How many of you are walking around right now saying, "She/he would love me if she//she only knew what an interesting person I am! Like seriously? How do all of your interesting thoughts and ideas manifest themselves in reality for he or she too see? If your dream girl or guy had a hidden camera that followed you around for a month, will what they see about you make them feel good.

Don't be that person. If you are that person, don't be that person anymore. This is what is making people hate you. This is what is making you hate yourself. Let your actions speak more and be an expression of who you are? If not, you will be stuck at the same point in life.

So, what am I saying? For example, should you pick up a book on how to get girls? Yes, but if and only if the step one in the book is "Start making yourself into the type of person girls want to be around".

Because that has always been the step that gets skipped. It is always “How can I get a Job?” and not “How can I become the type of person employers want? It is “How can I get pretty girls to like me?” Instead of “how can I become the type of person that pretty girls like?”.

“But why cant I find someone who just likes me for me?” You ask. The answer is “because humans need things.” If you don’t have what they need, you literally don’t exist, you are just living.

See, there comes a time you just have to give up many of your favorite hobbies in order to pay more attention to your appearance, your impact to the society around you and focus more on achieving in life, and God knows what else. You might even have to change your personality.

# EVERYTHING INSIDE YOU WILL

## FIGHT IMPROVEMENT

Why do drug addicts find it hard to quit taking drugs? It is because the human mind is more powerful than what you can ever imagine. It is equipped with layer after layer of defence mechanisms designed to shoot down and fight against any evidence that suggests that it needs to change.

Even if you don't remember any of the above truths, I want you to remember this, everything inside you will always, and always fight improvement.

Your mind is fighting improvement and the need for change whenever:

### YOU INTENTIONALLY INTERPRETE ANY CRITICISMS AS AN INSULT

“Who is he to call me lazy and worthless! A good person would never talk to me like this! He wrote this just to feel superior to me and to make me feel bad about my life! I'm going to think up my own insult to even the score!

### YOU FOCUS ON THE MESSENGER TO AVOID HEARING THE MESSAGE

“Who is THIS guy to tell ME how to live? Crazy little bastard! Whenever you get to where I am in life, you feel free to give me advice! Until then, you are nothing but an idiot.

When you truly don't care about the shit anyone thinks of you, you have reached a dangerously awesome level of freedom. A level of freedom that can ruin your life for good, that is if what the bad things they think of you is real and true.

If at all you want to be successful in life, you must train up your human mind and soul to minimize the rate at which it fights improvements.

You are a drug addict, you must train up your body to stop taking drugs, before it consumes not only your future, but also your life and your entire generation.

You are on a very low CGPA, you must train up your body to study harder. Hate it or love it, having good grades is the most important SWAG in school. If at all you should have pride, let it be about your grades.

You are always broke. Home and abroad, you can't even boast of a N100 every 48 hours. You must train up your body to hustle. Engage yourself in a legal business or idea that will earn you money. Think! Think!!! The world is too blessed for you to be broke.

WHATEVER YOU DO IN THIS LIFE,  
ALWAYS GIVE ROOM TO IMPROVEMENT  
IN ALL AREAS OF YOUR LIFE, BY  
WORKING ON YOURSELF ON A DAILY  
BASIS

## A STAMMERER LOSES HIS COOL IN CHURCH SERVICE

A stammerer was reported to have lost his temper during one of the Christian Fellowship Service in Permanent Site. Ask Google if you wan know the name of the fellowship.

Trouble started when a man made an announcement at the altar that the main fellowship keyboardist was not around, so, if there was anybody who could play a keyboard and to our reporter's surprise, a stammerer who was sitting beside her, stood up. The stammerer with a standing ovation was ushered to the altar to play the keyboard.

During the service, at the middle of the sermon, the Pastor who is also a student, raised a song and while he was singing, the Keyboardist who is no other person but the stammerer was trying his possible best to play to the song, but he was always off key. So, the pastor signalled Him to play in accord to the music and in 2minutes later, the Pastor said it loud in the microphone" Brethen, what is it, cant you play this organ"?

# NEW FLAME

From our own view, the stammerer was obviously getting pissed. When He was almost playing to the key of the song, the Pastor suddenly change to another song with a different key.

Dancing towards the keyboard, and pointing towards the keyboardist, the Pastor said loudly on the Microphone once more. D-sharp, Key C, Tap, Tap the Keyboard, Tap it, tap it like you mean it.

With a furious anger, the Keyboardist place his hand under the piano as he tries to stand up and the next minute, the keyboard WAS SMASHED ON THE PASTOR'S FACE. Non non non non non non noon ssseeense. Omo, na so service end o. The ushers ran to the crime scene, and almost half of the congregation quietly left to avoid problems with school security.

## GOODBYE GREAT FRIEND

It is being a long day without you our friend. We will tell you all about it when we see you again. We have come a long way, from where we began. We will tell you all about it when we see you again.

16th December 2015 was a sad day for the department of Sociology (especially 300L) as Paul breathed his last after a brief illness.

New Flame Magazine sends her sincere condolence to his family and friends. May his gentle soul rest in perfect peace.

## FREE DATA

For those broke peeps who instead of buying a Blackberry phone for browsing, decided to purchase the cheap Techno, Infinix and Innjoo so-called smartphones out of ignorance, and cant afford to pay for data, University of Abuja has now given you a reason to smile. Free Wireless Connection with unlimited download is now available both in Mini Campus and Permanent Site. All thanks to our God sent VC.

Download is at the speed of light. There were reports that a desperate student downloaded the whole Season 2 of Empire and How to Get Away with Murder (MP4 High Quality) within 120minutes. The only thing you should be worried about now is your battery. USERNAME & PASSWORD OF WIFI is "Test". Enjoy while stock lasts! Lol.

Before, the only way to gain admission into Unibuja is to know the VC or know someone who knows the VC. But thanks to the present administration, things have changed. Admission is now open to everybody, no more restrictions. It is no longer a family affair. And as a result of these, almost everyone who passed their Jamb and applied for Unibuja were granted admission. Even, Unibuja's almost forgotten department (Medicine) admitted new students.

## FOOLISH STUDENT COMMITS SUICIDE DUE TO HEART BREAK

Yes, a foolish student was reported to have committed suicide because his girlfriend broke up with him. Reports has it that this young man (names withheld) took care of his girlfriend's school fees from 100level. 400level was when he discovered that he has been running a REFUGEE CAMP, instead of a RELATIONSHIP.

"Guys. Please be careful who you are dating! A lot of girls out there are looking for help, not love." We are not arguing that this idiot did the right thing by taking his life. We are just saying PREVENTION IS BETTER THAN CURE!!! and that No Setback in life is worth taking your life for. Just Chill, you will still die. It is only a matter of time. Lol.

# **BREAKING NEWS!!**

University of Abuja declared that today is Saturday, the 26th December, 2015, which signifies that tomorrow will be Sunday, 27th of September, 2015.

As you can see, it doesn't have any meaning. Thank you for your attention sha. Keeping doing what you were doing, by turning over to the next page.

# BE A BOSS

## BUILT ON SELF-SUCCESS

The Empire, is one of the trending movies with 5 star ratings in 2015. The movie centres on a hip-Hop music and entertainment company, Empire Entertainment, and the drama among the members of the founders' family as they fight for control of the company.

If there is any life-lessons that should be learnt from this great movie, it should be that "your success in life is not only determined by your degree certificate, but by also the talent you've got.

We live in a world, whereby the unfortunate lives of individuals are usually blamed on the Government, the Economy and even the parents of the so-called individuals. Should we continue to put the blames on others, or should we just like Lucious Lyon in the Empire, find a way in recognizing what our true potentials are?

It might interest you to know that the real

definition of success is not about how many rich folks you know, or whose son or daughter you are. Success is all about finding what you know how to do best and getting people to pay you for it. And just like Cookie Lyon and her Lyon Dynasty establishment, the path to success comes with a lot of patience.

It is up to you to put aside all distractions in life and be determined to discover and use the gift God has given to you. It could be a gift of dancing, signing, writing, or even sports. It can even be something beyond imagination. You need to pay attention. Success speaks to you everyday. You just need to concentrate. And that is why in the society we live in today, it is 100% possible for you to be a Boss(Built on Self Success) Success isn't as hard as you thought. And if you are still confused on what to do, here are 5 jobs you can do to set you off to success and self accomplishments.

## **GRAPHIC & WEB DESIGNS**

Almost everybody is good in computer, but only a few are making cool money from it. Do you know why? It is because only a few are determined to take their ICT knowledge to that level where there is abundance of cash, the level of MEDIA, GRAPHIC and WEB DESIGNS. Being a computer literate is no longer all about Microsoft Word and a bunch of wordpressing packages. Yes, you are very good in Microsoft word, coreldraw and all that, but if you want to be a BOSS in the ICT world, you need to hook up to the next level of ICT GRAPHIC AND WEB DESIGNS, with applications such as Adobe Photoshop, Indesign, Premier, Dreamweaver, Web Design and Development.

## **BAKING & CONFECTIONARIES**

This is a resourceful and profitable business. if you've got the capital, you could invest into this business. To some of us, photography starts and ends with us taking selfies, but guess what, PHOTOGRAPHY IS MORE THAN WHAT YOU THINK IT IS. Photography goes beyond a group of people running around from one event to another forcing pictures on people. It goes further to be creative, been able to recognize beautiful

scenes in everyday activity, eg. capturing a bird in flight, a raining atmosphere, a thunder bolt, prominent personalities, wedding occasions, or even an accident scene and also been able to edit and package pictures in such an attractive way, with the help of computer applications like Photoshop. You can be paid up to N30,000 to be the official photographer of a single wedding ceremony. Is that not amazing? You can also be a freelancer, whereby you charge your customers 200 per picture, while you print at N30 per picture in the studio. That's N170 profit for every single picture you take. So, imagine you take a 1000 pictures a month, at N170 profit each. That is big money.

## WRITING

With mere words, have you got the ability to create a picture in the reader's mind of what you are trying to pass across? What are you waiting for? Get busy and start working on that talent. Writing is the coolest talent of all time, but the funny thing is that this skill is mostly owned by so many who have decided to keep it silent/dead.

So, if you are reading this, and you believe you are a good writer, we encourage you to take a success step towards that direction. If you take that step, deal your cards well, with time, you will be on the road to riches, diamonds and wealth. Examples of those who made it to the top through writing are Wole Soyinka (First Nobel Award Winner), Chiamanda (her book is still celebrated even till the day after tomorrow

Imagine a book with over 1 million copies sold and at a price of N750-N1500 each. Now, that's huge. The writer is already a multi-billionaire. So dear, get busy and start writing something. You can earn cool cash by simply writing articles, stories, poems for top magazines such as New Flame Magazine, Identity Magazine, or even through internet blogging

# DATE A BOSS

## BUILT ON SELF-SUCCESS

Make no mistakes o. We didn't say you should go and date your boss or a sugar daddy or mummy. Dating a Boss simply means dating and surrounding yourself with folks who have direction, a sense of purpose and significance in life.

One of the main reasons why Lucious Lyon and his company became successful was as a result of the selfless service and sacrifice of his wife, Cookie Lyon.

Why is it that a boy can be with all the sexy and hot girls, but when the time comes for him to get married, he seems to settle down with a not so beautiful girl, thus the reason for countless number of beautiful girls looking for husbands.

It is because of his understanding of a good wife. A wife who has a good sense of character, purpose and direction in life.

Don't be carried away by a girl or a guy's wealth. Look towards his or her vision, ambition, his plans and objectives in life.

Date a Boss! Date someone who has got a vision and a plan for the future, even though he or she may not have all the whole wealth in the world. Anyone who has a vision is not poor but pre-rich. Never you forget that.

# Exams are not everything!

How being active can  
take you a step even  
further than grades can.

“Every person represents his own opportunity. You are an opportunity... all by yourself.”

During the exam-period, you could notice a really standard, exam-related phenomenon; people getting anxious and nervous about their grades, as if they are the most important things in their lives.

I myself may have gotten the same feeling from time to time.

The thing is, that a single grade (or many accumulated grades, in that matter) will not largely shape your career/ life. Yeah, sure, having that wondrously beautiful '10' as an average is a damn great plus. But what people often fail to realize, is that the University is not exclusively about the grades.

It is also about what you do in your non-lecture/ non-homework time. Why, yes, that is also part of your University education; be it going out and having a drink, socializing or reading a book, you can find the educational aspect in almost anything.

Education does not have to be technical; it is also about the people, and the relationships you cultivate.

As much as many would like to think of the Job Market as a highly logical and structured field, many times it is not. Being well networked can get you much further than just having top-skills - then again, a combination of both can make you a superstar.

That is why you should attempt to do other interesting things in your free time. Using myself as an example, I have recently approached the SAA with an idea about hosting our own Model United Nations - a conference that simulates the workings of the United Nations - a perfect occasion for guys to wear suits and for girls to try out their new heels. Apparently, the SAA saw this as a good skill-crafting chance for our Student Community, got involved, and now, having gathered a great team, we are in the process of organizing it.

Apart from that, I also wrote an article on Medium and after posting that particular article, I got asked to write something for Focus Student Magazine as well. That, only from getting my thoughts and ideas out in public!

The bottom line here is to get yourself out there, in any way possible. Do you have a special thought? Write it down. Do you have a special skill? Showcase it. Only in this way will people get to know you and handout opportunities to you. You cannot go around blaming people of not recognizing you, when you do not take the necessary steps in handing them the plate with your name on it.

And one extra thing. Ask. Apart from getting yourself out there, also ask questions. I mean, ask everyone who you feel might have an answer. Do you want an internship in a particular company? Just ask them if they would like to hire you, you might get lucky, who knows? Do you want to get to know someone? See if you have any mutual friends around. Or are you simply in need of help? Seek it from your network. You would be surprised about how willing people are to help. Especially if you play the "Hey, I am a student" card.

So, do not stress that much about grades, it is good to have them, but Hades will not come and take your soul if you get a 02 instead of a 10 in Micro. Just go public. Network and court serendipity. Every person represents his own opportunity. You are an opportunity... all by yourself.
