

GUARANTY TRUST BANK ONLINE TRANSACTION DETAILS REPORT WRONG (FUTURE) DATE

AS AT JANUARY 2, 2016

- * As at today, GT Bank has not corrected the transaction details error. In the snapshot below, you would notice a transaction dated 29-Dec-2015 (a future date at the time of the transaction) for a transaction done on 24-Dec- 2015. Is the bank implying that this is acceptable for an entity (field) that is auto-generated? It appears an attempt to modify records possibly to cover-up the previous online payment error with CAC (Corporate Affairs Commission) has corrupted the bank's server. The sensible thing to do was/is to reverse the transaction.

I hope SECRET SERVICE FOOLS have not been rendering some unwanted services to the bank.
