

Pain free laser hair removal treatment

Tired of waking up every day with the fear of hairs growing back, which you shaved few days back? It will be a great disappointment to find that your fear actually came true. Shaving and waxing does not last long in hiding your face and body hairs. It is just a matter of few days you get relief after shaving.

On the other hand, thinking about the painful waxing, you don't want to go out and get it done and sometimes feels like it is just a waste of time and money. Taking out your time with a busy schedule to get the hairs removed can sometimes become a headache.

Laser hair reduction:

So, you might ask yourself what would be the great or the best option to remove your unwanted hairs that will at least not be back in a week and trouble you. Something which will be worth the money you spend. Well, if you are looking for such treatment, laser hair reduction will be the best option and a choice that you can ever make.

A laser technology, which is known by many people for its effective result. This laser hair reduction can help you get relief from the fear of getting back your hairs in a few days. A technology that destroys only the follicle or bulb of the hairs to reduce the density without harming the other skin.

Pain free laser:

So, what about the pain it will cause? Yes, there are laser machines that give pain during the treatment, but as the world develops pain free laser machines has also been introduced and made to give you painless treatment.

First time in India, we introduce Sciton machine which absolutely pains free. It is so comfortable to take that you will not even feel like you are going through laser treatment. One more advantage about this machine is that it does not leave any redness or swelling after treatment.

Post procedure:

After the treatment you will need to apply broad spectrum sunscreen to protect the treated area from harmful UV rays.

Opt **SCULPT** Aesthetic and Cosmetic clinic for the safest and effective treatment with a Sciton pain free machine. To see more, visit <http://sculptindia.com/laser-hair-reduction.html>
