

Meet Dr. Eddie Hamilton MD

Experience and the wisdom and understanding that comes with it

With **Dr. Eddie D. Hamilton**, you'll be getting one of the most experienced pediatric Physicians in the state. He's been in the business of children's health care for 26 years. **Dr. Eddie Hamilton** obtained his M.D. from the Vanderbilt School of Medicine in 1985, served his residency in pediatrics at the Vanderbilt University Medical Center and was licensed in 1988. He was certified by the American board of Pediatrics in 1989. Being a lifelong advocate for children's health care led [Dr. Eddie Hamilton](#) to found, in 2009, Better Health 4Kids, a 501(c)(3) non-profit organization that works to improve the health of children through preventative medicine strategies that foster greater access to care for children and their families.

In 1990 Dr. Hamilton founded Centennial Pediatrics, P.C. It's mission? To provide quality medical care to children and adolescents in the Nashville area, regardless of their insurance status or ability to pay.

Under the direction of **Dr. Eddie Hamilton**, Centennial Pediatrics has grown to twelve centers offering multiple children's health specialties including pediatric, dermatology, sports medicine, audiology and psychological care. Additionally, the centers offer bilingual (Spanish/English) and newborn hearing screening through Baptist Hospital.

Today, Dr. Hamilton is excited to continue his work with children in a setting even more conducive to keeping your family well: The Hamilton Health Concierge Practice, a place where the Physician's relationship with the patient (and their moms and dads!) can develop into a true partnership.

It's the type of unhurried service that provides more time for the kind of in-depth discussions needed to stay on top of your child's health and well-being.
