ST.PAULE DE VENCE

The major charm of St Paul de Vence lies in the fact that it is one of the most intact medieval fortified villages in the region. Perched on a narrow spur between two deep valleys St Paul de Vence is surrounded by very impressive ramparts – built on the orders of François I in 1537.

ARTIST AND PHOTOGRAPHER

With the exceptional luminosity found in this part of the region, the village became increasingly irresistible and inspired numerous artists, painters, writers and poets to work here; some of whom took up residence in the village.

With its maze of charming streets, little shady squares, its ancient fountains, gateways and porches, you'll quickly see why St Paul de Vence is a favourite subject for photographers.
