

INTRODUCING SEVENTH HOUSE

Seventh House is the brainchild of musician, artist, and writer Bryon Head. In 2007 Bryon, who had been working on completing a studio album, passed away. The Hill Project seeks to help complete Bryon's album with the help of other talented artists by raising money and resources within the community. It is the first of (with your help) many yearly projects to be funded by Seventh House: a non profit organization founded in Bryon's memory, keeping with his vision to partner with other talented artists to help pursue their visions.

Please visit our Facebook page to learn more about Bryon, his music and art, and to support the Seventh House organization and the future projects of talented artists in our community.
