

Writing Prompts for Science 2016

Option #1

- You will write as though you are an *astronaut* writing something to be read or heard by space aliens. The writing will be **at least one page** long and will explain the benefits of living on Earth rather than in space or on another planet. Or, you can choose to explain why they **would not** want to live on Earth.

Option #2

- You will write as though you are a laboratory scientist writing something to be read or heard by new people in the lab. The writing will be **at least one page** long and will explain the importance of lab safety and the use of lab safety equipment.
