Dear Mr Romeo:

You have requested a shipping quote for your "Electric Scooter" with a weight of 5kg. At this time, we are unable to process this due to the ongoing nature of the contents of your shipment.

At this time, there are questionable possibilities of a hazard with your shipment due to fire hazards of the contents/battery.

We are unable to provide shipment and/or a quote of this package due to these hazards.

We are sorry for this situation, but we must maintain safety protocols for these type of shipments due to regulatory controls.

We will be happy to further assist you with all your other shipping needs.

We want to thank you for choosing Federal Express as a shipping provider.

Sincerely

Vincent Guarneri
