**At ATCO, being your mentor capitalist is all about growing your capital idea.**

At ATCO, if you have an idea, we will see it through the journey to fruition, with the right kind of guidance, support and assistance that is based on experience, exhaustive research and informed deliberation. At ATCO, we channel our expertise in creating the right eco-system for raising adequate funds to sustain ideas often investing in them ourselves. We plan and implement turnaround and effective corporate strategies that help transform small private companies to successful listed entities.

And thankfully enough, in all of this, we don't treat you like a client but an equal in the successes that we will achieve together.

**Color me plenty**

**Spring Up For Spring!**

Start with a little spring cleaning

It's all about making decisions, that is, if you've the vision you probably have gathered enough stuff to fill up living rooms with no room to spare. To be able to add an extra color to your home you need to create space by throwing out some clutter—over-the-top clutter. Keep only those things around you that you love and use. Think outside the box and use household items in innovative ways to make all the difference. Some creative ideas and their handy tips will do the trick!

**Furniture and furnishings**

Spring opens time for change. If your furniture is focused around the fireplace all winter then it needs some rearranging to feel the coming summer. Arrange furniture in interesting angles and locations to create a new look for your room.

By arranging decorative pillows and cushions on furniture, these add color and texture to your room as well as give your furniture a new makeover. Toss up any couch or chair with a pillow or cushion in interesting shapes and colors.

Add colorful pillows, place mats and throws to your floors and furniture. They are comforting ways to add color and texture to your rooms and furniture. Since winter has left us, we don't need to worry about catching a cold by sitting on the floor. So try beanies in varied colors, arranged around a low coffee table as an interesting alternative to couches.
