## PROFILE

My name is Chris Peña and programming is my passion. I enjoy solving problems and learning new cutting edge technologies. Over the years, I've had the advantage to work alongside brilliant people and learn from them in many different aspects. Now, I'm looking to take my energy and knowledge and apply it in a fast-paced environment where I can contribute in meaningful ways.

## EXPERIENCE

May 2011 - Present **Data Management Solutions - Houston, Texas**

Web Technology Coordinator

Worked along side energy industry professionals as a web technology coordinator. Developed technologies for DMS which includes two iterations of the company website, client portal, and the structure for an eCourse.

Mar. 2015 - Present **Rove Corp. - Houston, Texas**

Founder / Web Developer

Founded Rove which specializes in web development and also provides clients promotional and marketing services. I had the opportunity to lead a diverse team of eight (8) from varying disciplines.

Jan. 2015 - Oct. 2015 **yoBored?**

Web Developer and Coordinator

yoBored? is a startup company which developed an app designed to find events and things to do in the area. Our team worked on website/app enhancements and marketing materials for events. Several successful events have been held at the University of Houston.

## EDUCATION

Jun. 2015 - Sep. 2015 **Coder Camps**

Graduate of the full stack .Net with Javascript Course

Aug. 2014- May 2015 **C.T. Bauer College of Business, University of Houston**

Working towards a degree in Management Information Systems

Aug. 2011 - May 2013 **Blinn Community College - Bryan**

Associate Program

## Cover Letter

*Dear Poetic Systems*

Since an early age my interest in all things technology have challenged me to a career in Web and Application development. Over the last five years (5) I have focused my efforts in obtaining the education, skill sets and technological expertise that would allow me to be a key member of a team devoted to the development of leading edge solutions.

I truly believe that Poetic Systems provides the exact development, work and team environment that I envision would be the optimal next step in this endeavor. I am equally convinced that given an opportunity I can be a valuable contributor to your ongoing success.

I am drawn to your company because you represent the exact environment that I am looking for to display and practice my skills and talents, as well as to continue to expand them in this ever changing world of technology. After reading everything on your site, I definitely believe that my values and the company's values align. Giving back through open source projects and content for the community is key for our field to thrive.

I would very respectfully ask that you consider my sincere request for an opportunity to apply for a position with your fine company.

Sincerely,

Chris Pena
