www.thearcblair.org/training

FREE TO THE PUBLIC
Registration Deadline: April 25

Training and Lunch
Provided at No Cost

Go from UNprepared to PREPARED!

Emergencies are not something we like to think about, but they can happen at any time. Emergencies can happen anywhere, including your home, your work, or your place of worship. Emergencies can be natural or man-made.

Although we may not know when a disaster will strike or a crisis occur, the more prepared we are the better we will be able to cope and ease anxiety.

Join us for a county-wide effort to help Blair County be prepared in the event of a disaster.

Emergency Preparedness
for People with Disabilities

Blair County

A Partnership between
local agencies, First
Responders and Blair
County Department of
Emergency Services

This training is geared towards individuals with any type of disability. Families and caregivers are also encouraged to attend. Don't assume you know what to do in an evacuation, shelter in place, or a home emergency - get the facts!

With what will you leave this training ?

- A better understanding of types of emergencies and how Blair County could be impacted
- What to have in your home versus what to have packed and ready to take with you in the event of an emergency
- An opportunity to meet First Responders from Blair County and ask questions that will help your particular situation in a disaster or emergency
- A form completed at the training to register with 911 so First Responders are aware of where you live and what type of disability you have
- Knowledge that could potentially save your life and the lives of loved ones

To register contact: The Arc of Blair County (431 Jackson Ave, Altoona) at 814-946-1011 or via the internet www.thearcblair.org. Go to the training page.
