## Chairman's Message

Education is the only tool, which makes a country prosper in every field of life, thus giving people a chance to live a peaceful and comfortable life. The founder of Pakistan Quaid-E-Azam Muhammad Ali Jannah, addressing the first all Pakistan conference 1947, stated that the future of our state will and must depend upon the type of education we give to our children. He laid emphasis on the access of girls to education and better quality of education for all in the areas of Science and Technology. The policy of Government to promote education through private sector gives us the mandate to establish educational institute in the province. The opening of Din College For Women, Chiniot is also an attempt to educate the youth of Chiniot, particularly the girls. This education project, in my view, will be a step to reduce the gender disparity and provide purpose-oriented education at an affordable cost to one of the most neglected under privileged remote areas thereby ensuring the empowerment of women by preparing them for the responsibility of scientific, technological and socio-economic development of the country

Our Courses are designed to provide our students the skills and knowledge they need to succeed in today's competitive environment. Our vision for the future is defined by realism and our focus is steadfastly on raising the quality of education to it and for not only with the best in Pakistan but those refers them as world class educational institution.

Din College for Women is set up with noble objective and pioneer spirit. Besides quality education, we provide very protective and satisfying environment essential for the growth of students' assure you that your experience at our institution will be rewarding both academically and culturally because we have excellent facilities for teaching classes as the faculty is highly qualified, we try to develop in each student maximum potential by providing not only the latest teaching methods and technology but individual guidance & assistance.

The real merit of an institution is to squeeze the best out of the available talent Din College for Women aspires to do that and ensures that the atmosphere is conducive to academic innovation. I wish you all the best in your future literary endeavors.

In the end, I would like to draw your attention to a very important issue in this world; man has so many desires and wishes. He struggles hard to translate his wishes and dreams in-to reality. He may fulfill his desire & It is also possible that he may not achieve his goal but the secret of real success in that every desire and wish should be in submission to the wish and desire of Almighty Allah JJH and His last Prophet Hazrat Muhammad S.A.W.W. I am also thankful to my city fellows particularly the members of "Anjuman Islamia" Chiniot, who stood by me and with their combined efforts and co-operation, the dream of this college become a reality. In the end, I pray to God that this college may fulfill our desires and prove to be an asset for Chiniot city.

**S.M MUNEER Chairman, Chiniot Anjuman Islamia**

## Din college For Girls, Chiniot (Secondary Classes (9<sup>th</sup> & 10<sup>th</sup>))

After achieving the fabulous success at college level. Din College also offers secondary level (9<sup>th</sup> & 10<sup>th</sup>) classes.

Secondary level is designed for the teaching of students under the direction of teachers. All education levels are important, but secondary school is important primarily because it seems to be at that level that people are able to interface with more technology.

Albert Motivans said “In many ways, secondary education is a bridge for young people from the world of school to the world of work.

### College is a community where:

- Each person is welcomed as an individual, whilst recognizing that their role as part of the whole is also vital
- Academic excellence is prized by all, whilst it is seen to be a part of the broader nature of education

# Master's Level Programs

A master's degree involves moving a step further into the realm of higher learning to enable you to be considered a true professional. To attain a bachelor's degree is a great achievement in itself and nothing to be sneered at, but to go on from there and achieve a master's degree shows a higher, more involved level of knowledge. Today a master's degree enables applicants to better compete in the workplace. Whereas in the past, a bachelor's degree would secure a job for life with great pay, the bar has been raised, and now a bachelor's level will barely get the applicant an interview let alone a position.

There are two angles to consider as far as the option for Master's Degree is concerned. Theoretically speaking, Master's Degree chips in with its necessary bit to add to the base and dimension of knowledge. Practically speaking, it may well be a strategy to survive the recession prone features of the current economy. There is little to deny the role of postgraduate program in hone your area of specialty.

A master's degree can open many career doors, including certain career fields and advancement opportunities.

Departments of Din College for Women, Chiniot can justifiably boast of its golden past and the present holding forth promise for a bright future. A blend of experience and youth in the faculty is working hard in disseminating and producing knowledge. We train our students to achieve the requisite competence required of scholars and teachers of today.

Our mission is to produce a class of conscious educated people, who are also mindful of the pitfalls. The department shall cater to the students, who have passed their Bachelor of Arts (2 year program). A graduate of the Department should be capable of recognizing how the study of the past may be used for the betterment of the future. They should be able to demonstrate sufficient capability to be objective, analytical and methodic individuals.
