Interview a classroom teacher or a student teacher with experience in a content area or a grade level in which you do not have experience. Determine what effective teaching strategies the teacher implements in his or her lessons for all students.

Focus your interview questions on the following:

Modeling a skill or a concept

Building vocabulary

Providing opportunities for repeated practice and use

Providing immediate feedback

Selection, adaptation, and sequencing of current curriculum materials to meet the needs of ELL students

Utilizing current materials for SEI Instruction

Delivering successful cooperative lessons

Write a 700- to 1,050-word critique using discussion from class as well as your interview response.
