

Offshore Formation Groups

<https://reddit.com/r/panamapapers> / rpanamapapers@riseup.net

What does this file contain?

This is from a spreadsheet of 151 different groups that provide similar business services for offshore company formation, banking, and some provide additional services like anonymous SIM cards, VPN accounts, remote desktops used for offshore banking over VNC and more.

There's an entire deep industry associated to all of this that goes way beyond what the Panama Papers has released. The more you dig the more you find.
