## Have You Met Our Newest Residents, Clouded Leopard Siblings "Suree" & "Malee"?

In December, we had the pleasure of welcoming two new residents into our Sanctuary, "Suree" and "Malee". These Clouded Leopard sisters are now about a year old, and came to use as part of the Species Survival Plan (SSP). They were born and raised in captivity at Zoo Miami and transferred to HPZS once we became an official holding institution for this program. We are so very proud to be a part of such an important effort, and we're excited to have them here.

Clouded Leopards are a vulnerable species and this worldwide program helps to ensure their survival. This is a species that does not breed well in the wild, and on top of deforestation and illegal hunting, the population numbers for this cat continue to drop.

There are few organizations that currently hold Clouded Leopards, so this provides a very rare opportunity to educate our community and provide an up-close look at an animal that most guests probably wouldn't get a chance to see otherwise. That being said, the Clouded Leopard is an incredibly elusive species, and we want to do everything we can to help make them comfortable and feel safe. Aside from generally being nocturnal by nature anyway, they have 24-hour access to their private night house, and during the day often prefer to stay inside. They will venture out from time to time – especially in the evenings and when the weather is warmer – but we expect them to stay pretty private until they fully acclimate to their new surroundings.

We do hope you'll come out and try to see them – we're so happy to be able to share them with you!

# Breakfast With the Animals is Back!

Our 2016 Breakfast With the Animals series kick-off next month, and we're excited to be offering the most exciting installment to date! This year we have five different breakfasts lined up, each featuring a different one of our most iconic animals. If you haven't been to one before, the event offers a full continental breakfast right up next to the featured animal. Our Keepers do a private feeding and discussion on the animal, answering any questions guests might have. We have members of our Education Department out to provide fun facts and information on the featured species, and a craft table for kids to do a fun, animal-themed project! These breakfasts make for a one-of-a-kind family experience and provide a great opportunity to see and support some of your favorite animals here at the Sanctuary.

This event takes place Saturday mornings here at the Sanctuary, from 9:00 AM – 10:30 AM.

This year's schedule is as follows:

**April 9: Bengal Tiger • May 7: Black Bears • June 4: Tortoises  
September 3; Mountain Lion • October 8: Gray Wolves**

Price: Members: Adult – \$16, Child – \$8  
Non-Members: Adult – \$20, Child – \$12
