

Hi, my name is Aaron Tze-Rue Tan and I would like to run for the position of treasurer.

One quality of mine that I feel would help me carry out my task as a treasurer effectively is that I pay a lot of attention to the small details of things.

Other things I believe would further enhance my skills as a treasurer are:

1. I am good with mathematics.
2. I have previous experience with the position of treasurer during high school.
3. I am willing to learn and improve in areas that I do not have experience at.
4. I tend to plan ahead of time before doing a task, as to be more prepared with the task.

As of now, I think one way I could help improve the association is that I would be able to complete my tasks with the utmost speed. This would help the flow of events throughout the semester to run more smoothly, as we would not have to worry about the finances when planning an event, and more time would be available to plan a concrete event.
