

X4Change Project Recife

X4CHANGE is a project that gives children a chance to learn foreign languages (English and Spanish) and have contact with people (YOU!) with different cultures and perspectives.

In Brazil, very few people have the opportunity to learn and speak global languages like English and Spanish. Through this project, we want to develop the will to learn on kids who don't have financial conditions, and make them have a broader view of the city and the world.

While doing this project, you will be able to develop your abilities like language teaching and community development.

This Project is connected to The Global Goals for sustainable development for humankind that will be chosen on September 25th in UN. It's connected to the goal number 4 Quality Education - Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.

To have a successful project, you can follow these 3 steps:

Step 1

Easy Communication: Basic process of understanding the expressions through learning speech. At this stage it is time to make the kids internalize the usual vocabulary and expressions.

Step 2

Learning by doing: Implement learning in global issues. Make them learn the language while developing dynamic and contextualized work. This is the longest stage of the project, because through the playful activities they will have real learning.

Step 3

InterAction: This is the stage that you become a mediator of knowledge, bringing more dialogues, tools, breaking their barriers on learning so that they understand the importance of interacting for learning the language.

.

What we expect from you:

- 1- Prepare and develop the 4-week period of specific material for each of the stages of the project thinking about its excellence;
- 2- Provide support to the local administrator, prioritizing the proper development of the operational plan;
- 3 - Participate in the IPSO before arrival to Brazil, IPS in the first week and specific training throughout the project, as well as official events of AIESEC.
- 4 - Participate in weekly meetings of project planning, recording the Activities Performed;
- 5 - Act with commitment, ethical and pro-activity in all actions performed.
- 6- Participate of the activities planned by the LC and/ or the NGO during the internship. Also be prepared to present your country during Global Villages.

Schedule of Activities you can use:

Week 0 (Before Arrival) - Study, preparation and talks with AIESEC

Week 1 - Incoming Preparation seminar, analysis of the NGO's reality and resources

Week 2 – Implementing the educational plan you built based on the observations and studies

Week 3 – Checking on results and fixing gaps while following the activities determined

Week 4 – Check of the final results brought from your activities, organization of materials and reports to be left as your legacy to the NGO and the other trainees who will come after you
