

# **PSY 104 Week 1 DQ 2 Developmental Domains**

**Check this A+ tutorial guideline at**

**<http://www.assignmentcloud.com/psy-104-ash/psy-104-week-1-dq-2-developmental-domains>**

Discuss the domains of development (physical, cognitive, and psychosocial) in relation to one age range of normal development. Through the perspective of at least one major developmental theory, explain the developmental accomplishments during that age range for all three domains. Provide research-based evidence from the articles assigned or your own research in the library in peer-reviewed articles for what occurs during each period.
