Career Objective:

Having around Six years' Experience in Audio/Video Editing and 2D/3D Animation. Am seeking a challenging position, utilizing my abilities developed through my education with an opportunity for career growth based on my merit and to promote the growth of the organization.

Professional Experience:

Project Title: "Establishing e-Training Environment for Training Technical Teachers and Students"

Designation: Sr. Project Technician (Video Editor - 1st June 2010 to 31st Oct 2014)

Worked in National Institute of Technical Teachers Training & Research (NITTTR - Ministry of Human Recourse and Development) Taramani as a project technician for educational films.

- We are doing animation for polytechnic and engineering subjects like Computer Networks & Chemistry.
- By using Flash and Maya.
- First we generate the storyboard for the given task and started to create the animation.
- Creation of 2D animation by using Flash and 3D animation by using Maya for the given storyboard.
- Then combine the all over animated creations into single story, using with Final Cut Pro (FCP) / Adobe Flash.
- Then the final product will be telecasted in Polytechnic Colleges and Engineering Colleges for their Experimental & Learning purpose.

Project Assistant: (4th June 2008 to 31st May 2010)

- Worked in Audio / Video Editing department for these 2 years.
- I have good knowledge and experience in the Audio / Video Editing software.
- In NITTTR they are releasing some educational films and project based films for Gandharshan TV.
- For that projects I have worked as an Audio / Video Editor for that programs and also did some other Audio / Video Editing work for the project based films.
- Some of the foreign candidates also studied in NITTTR, That student did some educational films I have handled the whole Audio / Video Editing process for that project.
- And also worked for the short course programs and summer school / winter school projects for the student and co-ordinate with them.
