Profile

- Benefitting from current full-time education, studying for a Mining Engineering Degree.
 - Experience working as Mine Planning Technician in a large-scale underground mining operation.
 - Effective in co-operation within a team or as a decision making individual.
 - Full UK driving licence.
 - Confident in oral, written and electronic forms of communication.
 - Seeking a graduate role in civil/tunnel engineering.
-

Education

Degree	BEng (Hons) in Mining Engineering at Camborne School of Mines (predicted 2.1), University of Exeter (Graduating July 2016). Relevant modules include: Tunnelling, AutoCAD, Project Management, Surveying, Health and Safety, Mathematics, Thermodynamics and Fluid Mechanics, Ventilation, Mineral Processing, Geotechnics, Surface Excavation Design, Mining.
A-Levels	Geology, Economics, Physics.
AS-Levels	Mathematics.
GCSEs	Twelve (A* - C) including 'A' in Mathematics, 'A' in Chemistry, and 'B' in Physics.

Relevant Experience

Summer 2015	Boliden Tara Mine , Navan, Republic of Ireland. 10 weeks experience working as Mine Planning Technician at the largest underground zinc-lead mine in Europe. The primary responsibility was design drilling to maximise efficiency, as well as long-term planning of the mine. Experience was also gained in many other areas of the operation, including scheduling and health and safety.
-------------	---

Relevant Skills

- Experience with Deswik, AutoCAD, SolidWorks and Rocscience software packages.
 - Learning Mandarin Chinese.
 - Proficient in Microsoft Office.
 - Conducted numerous presentations to a high standard.
 - Competent using surveying equipment.
 - Knowledge in health and safety, having completed a Boliden induction and course module.
-

Employment Record
