INSTRUCTIONS

USING THE DIFFUSER

Note: use caution when opening collapsed disc.

The Raya Collapsible Reflector Disc has a 1 f-stop diffuser inside the reversible reflector sleeve. The translucent center panel diffuses light, producing a softer light source with a wraparound effect that's perfect for outdoor portraits or whenever a softer light is needed. Simply unzip the sleeve to remove the diffuser. Reinsert the diffuser into the sleeve before storing.

REFLECTIVE SURFACE GUIDE

White: Provides a neutral soft-fill reflection.

Silver: Similar to the white surface but reflects light with a higher contrast.

Gold: Reflects a warmer light onto a subject, enhancing skin tone in neutral or cool light situations.

Black: Blocks unwanted reflections and kills light spill.

FOLDING FOR STORAGE

- 1 Be sure the reflector sleeve is securely zipped closed on the diffuser disc before folding.
- 2 Grasp the reflector disc as shown. Note that your thumbs should be on opposite sides of the disc.

FOLDING FOR STORAGE

- 3 Twist the reflector into a figure-eight shape.
- 4 Continue twisting and pull the two sides together as shown. The two sides will pass one in front of the other until they are stacked together.
