Why Choose Us to Meet Your Telehealth Needs?

Avizia serves thousands of physicians and specialists at over 400 hospitals and clinics worldwide. We help you deliver the right care to your patients at the right moment with technology customized for you. Unlike any other company, Avizia provides you a complete telehealth platform, including hardware, software and consultation.

Meet Our Clients

Arizona Palliative Home Health

Using OnePlace video conferencing software, APHH reduced expensive and difficult hospital re-admissions by 52%. Since physicians no longer spend time traveling to see patients in rural areas, they saw twice as many patients each day. Plus, patient satisfaction increased to 89%. Behavioral Health Providers

Due to a lack of sufficient mental health professionals in Minnesota, BHP's patients were frequently admitted unnecessarily. Through incorporating virtual visits and secure messaging software, assessment professionals meet face-to-face with patients. [Download the case study here.](#)
