Microsoft Toolkit

All the functions are running in the background and the GUI is disabled to protect against running several functions, because they could conflict or result in damage they should be run all at once. And every output from these functions is shown in the Information Unit.

Microsoft toolkit features dual activation methods which are the EZ activator and the Auto KMS.

Microsoft Toolkit Activator

Microsoft Toolkit is a free, reliable and powerful multipurpose set of applications and functions for deploying, handling licenses, uninstall Microsoft Office of every products completely as well as activating Windows and Microsoft Office with just one click.
