

OZKAVOSH Dictionary

Some tips for pronunciation:

Ch sounds come out with a guttural flourish, similar (but much lighter than) similar throat sounds present in Arabic and German. You may also try thinking of it as a very hard H sound (which is how I've noted it below--lots of capital Hs).

Zh is a normal sh sound with a bit of Z in it. A similar sound would be the Gs in a name like name "Gigi", or the "Zs" sound in the name "Zsa Zsa Gabor". Phoenetically notated below as "zs".

The word "Ozh" (meaning one's self, such as I, me, myself, and possessives such as mine) is always emphasized. Demons are of course very egotistical, selfish, and self-centered.

<i>Ozkavosh</i>	English	Phoenetic
Ozh	Self (I, me, my, mine, etc)	OZS
Izh	Other person (you, him, her, etc)	eezs
