

Confused to Make Choices for Retina MacBook or MacBook Air?

Apple is known for producing a wide variety of Mac desktop and portable devices. Among all Mac products, MacBook is too famous among the users globally. The MacBook is actually a brand of Notebook computers that remained from May 2006 to July 2011. Now, it again launched in 2015. With its re-launching, many Apple users were confused that whether they have to choose 12-inch Retina MacBook or 13-inch MacBook Air. Now, its supports and solutions services are also available in the form of a [technical customer support for MacBook](#). Here, with this article post, you will be able to decide that which MacBook will be suitable for you. Read more at <http://www.apsense.com/article/choose-a-macbook-of-your-choice.html>

12-inch Retina MacBook and 13-inch MacBook Air, both are thin and light weight and can be easily carried anywhere. Due to this quality MacBook stands as the most superior devices.

Retina MacBook comes with only one USB-C Port which is used for both charging and data connection while MacBook Air comes with a charging point along with two USB 3 which are a SD card reader and Thunderbolt 2. One USB-C is beneficial when it is charged with USB battery bank which is too suitable to carry. See also <https://www.rebelmouse.com/applecustomer/know-more-about-apple-macbook-pro-1842925820.html>

When you have to work with photos or videos, then understand the importance of SD card slot, but at the same time it becomes inferior to 12 inch Retina MacBook. MacBook Retina display, viewing angle, color accuracy and contrast is better as comparison to MacBook Air because it gives HD display view.

MacBook Air processor is more powerful as it is needed to cool your system with fan, so difference becomes slight. With 13inc display, it gives you extra two hours battery backup for internet usage.

For creating ultra thin MacBook, Apple had to design its keyboard and track pad. This becomes more advanced in Retina with balanced butterfly keys that give you smooth, fast and free typing just as the Air. Its touch track pad is also improved as comparison to Retina to give you smooth and free touch.

If looking for speaker then MacBook retina speaker is louder as comparison to Air. Because of forming a thin key board and touch pad, Air speaker was unable to have the sound as Retina.

If talk about the support and solution services for MacBook users, then Apple has provided special [customer support for MacBook Air](#) and customer support for Retina MacBook so that users can have immediate solutions if they face any trouble with these devices.
