

# Full Motion Video (FMV) Exploitation

## ABOUT THIS COURSE

This course is designed to provide students with an expert level of knowledge and experience analysing and exploiting FMV. The content is a progression of the IMINT fundamentals module that allows students to start manipulating imagery and making critical assessments on what is seen and most important of all, what they think is likely to happen next.

### COURSE TYPE & FORMAT

This 5-day course is at intermediate level and will be taught classroom style.

### WHO SHOULD ATTEND

This course is intended for those looking to deploy alongside an ISR platform or as part of a central operations room providing decision support to superiors and commanders.

## WHY ATTEND

By the end of the course, students will be able to:

- Effectively view, record, decide and disseminate information from FMV including the production of high quality intelligence products brief others on the current and future situation
- Learn about the importance of communication between analysts and operators as well as ensuring the Commander's critical mission specific questions are being answered.

## PRE-REQUISITES

Students must have already attended the 2-day ISR Fundamentals and IMINT Fundamental courses.

## PRICE

**5-day courses start from £1200 for individuals.**

**If required, our staff can deploy and mentor the students to ensure that the key learning points from the course are implemented fully into the mission.**

## 3SDL – THE EXPERTS

3SDL is a leading defence and cyber data systems specialist that enables individuals, organisations and military forces to deliver positive effect.

We enable this through training, applied innovation and collaborative partnerships with the world's leading defence authorities.

It is our independence, proven expertise and ability to apply real-world knowledge that's earned us a global reputation for making the impossible, possible.
