OUR Story

Linwood is a family business, based in the heart of Hampshire. In that rather English way, we straddle the worlds of classic design and innovation. Linwood is the traditional and the inventive, hand in glove.

Our design team draw their inspiration from textile archives, museums and art history to create beautiful, original collections of fabrics and wallpapers. We're drawn to designs with a sense of heritage and those that reflect popular culture.

We like working with people we know; many of our fabrics and wallpapers are made entirely in Britain. The rest are made in Europe (Italy and Belgium mostly) by family-run mills with whom we have long-standing relationships. Linwood brings you substance and style, artistry and excellence.

Create your very own lookbook

Have you ever fallen for a lovely fabric but not been able to visualise what it would look like on a sofa or as curtains?

Our new lookbook takes the guesswork out of creating a scheme. Select your favourite 6 samples and a day or so later you will receive them in the post, along with a personalised, printed lookbook showing your selection on a sofa and hanging as curtains.

1.
Select your favourite fabrics

A truly comprehensive range of prints and weaves in a fabulous array of colours and textures. Select up to 6 beautiful fabric samples to include in your lookbook.

2.
We create your lookbook for you

Using your fabric choices, our software transforms these into beautiful images, showing you what your choices will look like on a sofa or as curtains.

3.
Then it will be posted to you with your samples

Once constructed, your personalised lookbook will be on it's way to you alongside your requested samples.

FROM CONCEPT TO Design

The first stage of the design process is to decide what type of collection we want to produce - is it print, weave, wallpaper, or a combination? The general look is then decided on - for example whether it has a more traditional or contemporary feel. We usually like to create something quite different from the previous major launch.

The ideas for the actual designs are usually inspired by a piece of traditional textile, a painting or sometimes even jewellery and architecture. We then create mood boards with imagery and colours to hone down our ideas and focus on the chosen theme and style.

We will then either create designs on tracing paper from scratch, often using traditional imagery as reference and then paint the designs or sometimes we use document designs from archives which we then develop ready for production.
