# Australia Study Visa Guide

You need to apply for study visa to study in Australia. Australia study visa guidelines have been changed and a SSVF (Simplified Student Visa Framework) has been implemented from first July, 2016. According to the new guides set by DIBP, all students need to apply for Australia study visa under subclass 500 from 1st of July 2016. The Simplified Student Visa Framework (SSVF) replaced the previous student visa system.

A single, Student visa (Subclass 500) replaced the previous seven visa subclasses (570-576).

**Key changes and Features of simplified Student Visa Framework for Australian Student Visa.**

a reduction in the number of student visa subclasses from eight to two and the introduction of a simplified single immigration risk framework for all international students.

# Overseas Education Consultants

Every year thousands of students from India go abroad for their studies. Overseas Education is a preferred choice for Indian students, due to various reasons like flexible academic curriculum, quality education and much relished lifestyle and better career opportunities. Study abroad gives students with global cultural environment, where one can sharpen their interpersonal and social skills. The practical learning at overseas educational institutes is much welcomed change for Indian students. Study in a foreign country should not be taken as an easier task, because of standards and educational system. As there are many international study destination are available for students they may get confused. So theirs a need overseas education consultant come in. They help to assess your documents and options and helps you to decide your future course and country.
